El Dorado, California ? A tree service company that prioritizes customer satisfaction, El Dorado Hills Tree Service Pros has finished equipping their new base of operation in El Dorado. The company, which is now open for business, plans to handle all types of tree services, including, tree trimming, tree pruning, tree cutting, tree removal, and stump grinding.

?It took us longer than we had hoped to open our new offices,? said the company?s CEO, ?but, the reason behind this is that we were not taking any chances. We had to ensure that our team of professionals is equipped with the latest tree service tools. Using our advanced tools, we can now handle the most complicated procedures safely.?

While El Dorado Hills Tree Service Pros may have just opened their first office in Eldorado Hills City, the company has been offering its tree maintenance services for more than 25 years. The company reports that

they only have the best of the best on their team of tree experts. El Dorado Hills Tree Service Pros indicated that all their tree maintenance procedures are supervised by an International Society of Arboriculture (ISA) certified arborist. The company guarantees positive results for every project they are hired to handle. The company has been working towards the safety and convenience of the people of El Dorado Hills City. "Inclement weather is pretty common in the city of El Dorado Hills," said the head of field operations, "when storms damage trees and leave them in compromised positions, something has to be done immediately to minimize the resulting damage and to eliminate the possibility of injuries. When it comes to tree emergencies, our clients can call us at any hour of the night or day. We will arrive within the hour to eliminate the risks."

El Dorado Hills Tree Service Pros claims that its goal is not just to maintain the current trees. The company also wants to help the city's residents expand their urban forests. "Our arborist department is always willing to help property owners with tree planting," said the head of the arborist department, "we will help them choose the best trees for their specific location, help them with planting and taking care of these trees."
