

Face Services Paintless Dent Removal Company Announce New Repair Garage Opening In Glasgow

July 15, 2021

July 15, 2021 - PRESSADVANTAGE -

Face Services, based in Bellshill, Glasgow, has announced that they have opened their new car body repair shop offering paintless dent removal, scratch and dent removal and automobile accident damage repair. These are offered in addition to the repair of minor dents and scuffs to bumpers and alloy wheels.

Professional dent repair is required since vehicles will develop several scrapes and dents over time. While body restoration is a typical choice for dealing with car dents, car owners may discover that paintless dent removal is a preferable option. These benefits are related to cost, quality, and timeliness. More information about their services can be found on the company website <https://www.faceservices.co.uk/>

Mohammed Shakil the owner from of Face Services says, "Face Services offers high quality repairs for anything from minor scuffs, dents and scrapes through to repairs of major accident damage. We have been established in the Glasgow area since 2007 but offer over 30 years of experience in the car body repair industry. We use high quality paints and materials to restore that showroom finish to your vehicle. Click the button to go to our contact form and we will get back to you as soon as we receive your enquiry."

Face Services took the decision to open a body repair garage where customers can come in for repairs as the mobile service they were operating caused many delays in the actual repair work due to bad weather, Mohammed went on to say "We loved the flexibility and ease for our clients by offering a fully mobile repair service, but as we would often have to leave a job incomplete and return several times to complete the repair as the weather conditions were not ideal, this was inconvenient for the car owner and would cause added time required for each repair. By having a repair shop open and running we can guarantee repair times and increase customer satisfaction."

A company spokesman commented, "Since Face Services was established in 2007, our aim is to fulfill the needs of all of our clients and we pride ourselves on providing excellent customer service and exceeding expectations. We have carried out repairs for many businesses as well as private clients throughout Glasgow and surrounding areas. Our repair service provides for regular or one off jobs, to meet the needs of each individual customer."

He went on to say, "We have full workshop facilities and offer a quick and yet high-quality repair service for minor bumps and scratches. We also undertake car body repairs for major accident damage. Plus our complete body polishing service can restore tired, faded and dull paintwork back to original finish and remove fine scratches, and swirl marks. What makes our service so special is over 30 years experience of all types of repairs to plastic bumpers scratches, gouges dents, cracks and tears and also welding of plastic materials you can be confident that we have the knowledge and skills to make a top-quality repair. All of our repairs that we undertake are backed by a 2 year no-quibble guarantee."

Those who are interested in car body dent removal offered by Face Services can check out their website at Face Services or contact them on the telephone, or through email. They are open from Monday to Friday, from 9:00 am to 5:00 pm, and on Saturdays, from 09:00 am to 12:00 pm.
