June 2021, Bluffton ? Ugly Duct Cleaning assures clients that they implement standard health and safety measures with their dryer vent cleaning services and all their service offerings.

The company caters to numerous locations in South Carolina. One location they serve for Dryer Vent Cleaning is Lady's Island, SC. The company ensures that when servicing clients, social distancing is enforced. Masks and the use of sanitizers are also being implemented. The agency also accepts contactless payment. Aside from these preventive measures, Ugly Duct Cleaning also uses a bacterial treatment that the Environmental Protection Agency has approved to help fight the coronavirus.

Dryer vent cleaning also helps protect the family from health hazards. A clogged dryer vent can exhaust moist air and even cause water leakage. The company says, "All this moisture will encourage the growth of allergens in your home and clog your vents even more." Another health hazard caused by clogged dryer vents is poisoning by an odorless and colorless gas called carbon monoxide.

"With professional dryer vent cleaning service, clients are reminded to clear the clog and provide great ventilation for a healthier home," states Ugly Duct Cleaning.

Meanwhile, Ugly Duct Cleaning states the many benefits to gain when getting dryer vent cleaned by professionals. One is to save time. Clogged ducts make it harder to dry clothes and even require more than one cycle. Professionals like Ugly Duct Cleaning have the right machinery to do more important tasks. Aside from time, Ugly Duct Cleaning also helps save energy.

Furthermore, Ugly Duct Cleaning offers not just excellent service but great work ethics too. They say, "We have integrity and will be punctual and efficient. We are working to serve you. We have a team of experienced and trained air duct and vent cleaning technicians who are experienced, trained, skilled and

courteous."
