Franklin Tree Service Experts Educates Property Owners on the Timing for Tree Trimming and Tree Pruning

July 19, 2021

July 19, 2021 -
Franklin, Tennessee ? A company that has been handling tree care procedures for more than 25 years, Franklin Tree Service Experts has decided to ensure that property owners are handling tree pruning and tree trimming at the right time. Educating property owners on the best time to prune and trim trees, the company stated that the timing for these procedures depends on the tree?s stage of growth.

?The best time to handle tree maintenance procedures that involve cutting sections of the tree is during the tree?s dormant stage,? said the company?s CEO, ?When trees are dormant, they stop growing actively. This reduces the risk of causing significant injuries when handling tree care procedures.?

Franklin Tree Service Experts has been home to experienced tree pruners and tree trimmers for close to 30 years. The company has been helping property owners in various parts of Tennessee restore their trees aesthetical appeal, health, and safety, through pruning and trimming. Also, the company is equipped to handle more complicated procedures like tree removal and emergency tree services. Franklin Tree Service Experts prioritizes fast response, always taking the shortest time possible to get to the worksites and get started with requested services. Using advanced tree service tools, the company completes tree care procedures quickly.

?Most trees in Franklin City enter the dormant stage in the fall season,? said the company?s CEO, ?This period tends to last through the winter season and ends just at the beginning of the spring season. It is, however, worth noting that not all trees follow this growth cycle. Therefore, it is always important that you work with professionals to avoid making mistakes when timing tree maintenance procedures.?

Franklin Tree Service Experts reports that tree removal and emergency tree care procedures can be handled

at any time of the year. ?Emergency tree services need to be handled immediately to eliminate the risk of property damage,? said the company?s CEO, ?Tree removal, on the other hand, involves getting rid of the tree completely. Since property owners do not have to worry about tree damage when they are investing in its removal, tree removal can be handled at any stage of the tree?s growth.?

Franklin Tree Service Experts handles tree care procedures on both commercial and residential properties. The company is passionate about tree maintenance and charges competitive prices to make its professional services affordable to all its customers.

Franklin Tree Service Experts has its physical offices at 130 Seaboard Ln, Franklin, TN 37067, United States. For a chance to talk to the tree service company, call 615-551-0754.
