Destination Paradise Releases Africa 4 K Relaxation Film on its Youtube Channel

July 23, 2021

July 23, 2021 -
Destination Paradise has released a video titled ?Africa 4K Relaxation Film? on its Youtube channel. The video is an homage to the beauty of the African landscape.

The video contains majestic drone shots of the continent set to relaxing music. The cinematography uses multiple techniques such as aerial shots, flyby shots, and time-lapse shots to capture the dynamic beauty of the land, its flora, and its fauna at different times of the day and in different weather conditions. The video contains shots of interesting subjects such as wildlife such as giraffes, rhinos, buffalos, sea lions, lions, wildebeests, butterflies, and flamingoes along with mesmerizing geographical features such as beaches with palm trees, jungles, forests, rivers, remote towns, villages, cityscapes, waterfalls, farmland, vineyards, and many more.

The video contains shots of locations such as Paje beach at East Zanzibar island, Tanzania?s mangrove jungles, Uhuru Peak at Mount Kilimanjaro, Pilanesberg National Park in South Africa, Kalk Bay in Cape Town, a Lushoto Town based in the Tanga Region of Tanzania, the Usambara Mountains in East Africa, Ditinn waterfalls in Guinea, Kamandjan in Siby, Mali, the Gorge in Great Rift Valley in East Africa, Mto Wa Mbu in Arusha, Tanzania, Central Kalahari Game Reserve in Botswana, Bwabwata National Park in Namibia, Lake Natron in the Great Rift Valley between Kenya and Tanzania, Maasai Mara National Reserve, Waterberg in South Africa, Albert Falls Game Reserve in the KwaZulu-Natal province, Lake Manyara National Park, Wete City at Pemba Island, Zanzibar, Clifton Beach and Twelve Apostles Mountains in Cape Town, Constantia in Cape Town, Lisbon Falls, Mpumalanga in South Africa, and Kambadaga Falls in Guinea, Africa.

Africa is the second-largest continent in the world and it is teeming with geographical and biological diversity. It covers about one-fifth of the total land surface of Earth and is also home to almost a fifth of the world?s population. On the west, the continent is bounded by the Atlantic Ocean. To its north, it is separated from

Europe by the Mediterranean Sea. The Red Sea and the Indian Ocean flank its eastern borders while at its south the waters of the Atlantic and Indian oceans meet and mingle.

Those who are compelled to visit the nation after watching the video can make their way to the countries like Morocco, Egypt, South Africa, Tanzania, and Tunisia where the tourism industry is strong and highly developed. If one is trying to view the wildlife in the region they can head over to the national parks such as Kruger National Park, Addo Elephant National Park, Table Mountain National Park, Golden Gate Highlands National Park, Mountain Zebra National Park, and many more. If one is trying to relax and enjoy modern comforts while benefitting from beautiful beaches and the relative proximity to Europe, tourists can choose countries like Morocco and Tunisia.

Africa is called the cradle of civilization as human beings are believed to have originated in the continent. Fossils have been found on the continent dating as old as 7 million years. Later, early civilizations such as the Egyptians and the Phoenicians emerged in North Africa. Today the continent is comprised of a largely diverse mix of ethnicities, cultures, and languages. Though the continent is relatively stable today, political conflicts have been known to erupt occasionally. The 21st century has seen a steady decline in armed conflict and several of its economies are amongst the fastest growing in the world.

The Africa 4K Relaxation Film is more than 1 hour and 27 minutes long. It perfectly blends beautiful natural and manmade vistas from the continent along with relaxing and uplifting music. The video has received more than 28,000 views in a short span of a few months. The viewers seem to be enjoying the content as is evident in the plenty of encouraging comments left in the comment section. The company also posts similar beach drone videos from many other scenic locations around the world on its Youtube channel.
