July 26, 2021 -
Youtube channel Destination Paradise has posted a video titled ?New York 4K Scenic Relaxation Film?. The video juxtaposes impressive shots of New York City and its formidable skyline along with calming and relaxing music.

New York City, also known as the Big Apple, is the most populous and also the most densely populated city in the United States. It is considered to be one of the foremost cultural and financial capitals of the world. It comprises 5 boroughs - Brooklyn, Queens, Manhattan, the Bronx, and Staten Island. The city is built on three islands - Long Island, Manhattan, and Staten Island, all of which have been altered significantly by human intervention through land reclamation.

The city?s skyline is dotted with world-renowned architecture that was appreciated by more than 62 million visitors in 2017. The city is home to iconic buildings and locations such as Times Square, the One World Trade Center, the Woolworth Building, the Chrysler Building, and many more such examples immortalized by generations of film and television media making them instantly recognizable to countless people around the world.

The video from Destination Paradise attempts to capture as many possible facets of the city as it can in its runtime. The video showcases locations from the city such as the Manhattan district on the shore of East River, the Empire State Building, Times Square, 42nd Street in Midtown Manhattan, Brooklyn Bridge, East River, Central Park, Ellis Island, 2nd Avenue, Roosevelt Tramway, St. Patrick?s Cathedral, Manhattan?s Lower East Side, Bryant Park, Downtown Brooklyn, Statue of Liberty, Radio City Music Hall, 9/11 World Trade Center Memorial, Citi Field, Mets Stadium, Hudson Bay, and Westhampton.

The video does a great job capturing the imposing beauty of the city?s skyline, the hustle, bustle, and cacophony of its busy streets, the silence and peace of Central Park, the switch in the mood of the city when

the light changes during sunrise and sundown, and many more such gems that would only be experienced by someone who lives in the city. The video blends multiple aerial drone shots, flyover shots, time-lapse shots to create the perfect collage of video clips.

New York was founded by Dutch colonists in 1624 and it got chartered as a city in 1653. It was alternatingly ruled by the Dutch and the English during various periods. During the American Revolution, it was the capital of the country from 1785 until 1790. The city boasts a storied history of events that played a crucial role in the foundation of the country. In the 19th century, the city was home to several prominent American literary figures and industrialists. The period also saw an influx of immigration from Europe, especially from Ireland and Germany. In the 20th century, the city became a center of industry, commerce, and communication. Post World War 2, the returning veterans created an economic boom which along with the rise of Wall Street, cemented the city?s status as the financial capital of the world.

Geographically, the city is situated in the northeastern United States, halfway between Boston and Washington DC. The city?s initial growth on the world stage was driven primarily by its importance as a trading port owing to its location at the mouth of the Hudson River that connects to the Atlantic Ocean. The city features a humid subtropical climate with temperatures between -12 degrees Celsius during the coldest days of winter and averaging around 32 degrees Celsius in the summer months.

The New York 4K video from Destination Paradise is over 1 hour and 5 minutes long. It has garnered over 7000 views in a short time span of just a few months. The video has multiple comments on it thanking the Youtube channel for the upload and the general consensus is that the viewership is enjoying the content. Readers can find many more similar scenic relaxation videos from locations all around the world such as England, Africa, Maldives, Romania, and more on the Destination Paradise Youtube channel.
