October 05, 2015 - PRESSADVANTAGE -

Dr. Uttma S. Dham of Westside Dental Center in Plantation, FL, who is long known for promoting better oral health, has announced that she is now offering Invisalign to her patients. This will enable the dental clinic to help even more people achieve that great smile.

"My patients' comfort and well-being lie at the heart of everything that I do," says Dr. Uttma S. Dham from Westside Dental Center. "I want to make sure they have the best possible oral health, and that they look their very best as well. This is why I am so happy that I can now offer Invisalign to my patients, which will enable them to have that million dollar smile as quickly as possible."

Invisalign has been observed to offer a number of specific benefits to patients. First of all, it allows for much healthier gums, which is one of the reasons why Dr. Dham was so keen to be fully trained in the technology. Secondly, they are all but invisible, which is something that many people find important from an aesthetic point of view. Additionally, they can easily be removed, which is why they are also easy to clean. As such, they are more hygienic than other types of braces. Finally, they require far fewer dental visits, which allows people to save a great deal of money.

As such, Invisalign fits in with Dr. Dham's overall philosophy of offering high quality dental care at affordable prices. Those who read patient testimonials for the dentist will see that she is very much respected for this. "Westside Dental Center and Dr. Dham are simply amazing!" says Grateful Rambler. "The office is beautiful and the staff are efficient and so nice. I would recommend this dentist office to anyone who needs high quality dental care. They have Botox too, which is awesome!"

The fact that the Plantation dentist also offers Botox is something that sets the dental clinic apart from the crowd. For Dr. Dham, it is just another element that will allow her to help people look their very best.
