Irvine Tree Experts is Helping Irvine Residents Choose the Best Trees for Their Properties

July 21, 2021

July 21, 2021 -
Irvine, California ? A tree service company with more than 25 years of field experience, Irvine Tree Experts is now helping property owners with tree planting advice. Taking advantage of its firm understanding of Irvine weather and soil, the company is helping property owners choose trees that will do well in their landscapes.

?One thing we have noticed over the years we have been in business is that properties with non-native trees always lose their trees sooner,? said the company?s CEO, ?Native trees are well-accustomed with the weather and soil types in Irvine city. With proper maintenance, some of these native trees can last for centuries on landscapes. Our new goal is to help property owners plant trees that won?t end up failing because they aren?t suited for the environment in which they are planted.?

A family-owned business, Irvine Tree Experts was established close to three decades ago to help preserve the city?s urban forest. The company handles all types of tree maintenance procedures, including tree pruning, tree trimming, emergency tree services, and tree removal. The company?s team of tree service experts has years of field experience, decades of formal training, and is passionate about tree care. Equipped with modern tree service gear, the team handles tree care procedures safely and with ease.

?We work with both commercial and residential property owners,? stated the company?s CEO, ?We are always available to take care of trees from day one of planting, through the growth period, and during maturity. By helping our customers choose the best trees, we hope to reduce the number of tree removals we have to do in the city. If a tree is well adapted to its natural environment, it will even need lesser maintenance procedures, which should also help the homeowner save his/her money.?

Irvine Tree Experts has made a name for itself for taking all the necessary steps to ensure its customers are satisfied. The company reports that its professionals will always listen to the client to understand his or her needs before getting started with any tree care procedure. ?Even when it comes to recommending trees to

plant,? said the company?s CEO, ?We take our time to listen to the client. Some clients want a privacy screen, others want shade, while others want flowering trees that cover their landscapes with color in the spring.?

Irvine Tree Experts offices are located at Goddard, Irvine, CA 92618, United States. To speak to the company, one will just need to call the number 949-288-5499.
