

Resurgence Behavioral Health Announces New Executive Vice President of Operations

July 26, 2021

Costa Mesa, California - July 26, 2021 -

Resurgence Behavioral Health is thrilled to announce that Tiffany Nicolau has accepted the position of Vice President of Operations. A trusted and integral part of the Resurgence team for years, Tiffany brings a wealth of experience to the position that will allow her to grow and continue to develop her impressive organizational skills.

As the VP of operations, Tiffany will work directly with the Resurgence CEO to ensure that each one of the locations is able to fulfill its mandate to provide the best possible treatments for the clients. As part of her new role, Tiffany will correspond regularly with each of the Executive Directors and Program Directors, evaluating their reports, and collaborating to ensure that all of the programs are operating successfully.

Tiffany has an extensive background in addiction treatment. She brings extensive experience working with quality care standards established by the Joint Commission and DHCS to this position. Her ability to effectively manage organizational teams and projects made her a clear choice for this exciting new

promotion. Tiffany has also worked elsewhere in the treatment industry as a Program Director, Corporate Compliance Officer, and Case Manager.

Resurgence is committed to providing customized care in a setting that exudes positivity in order to promote the health and well-being of each client. They believe that Tiffany is the perfect candidate to work with the Leadership Team to support the program goals and innovative treatment environment, always while modeling the empathetic and compassionate spirit that is at the core of the network. Please join them in welcoming Tiffany to this new position. They look forward to the insight and inspiration she will add to this role.

Resurgence Behavioral Health operates high-quality alcohol and drug addiction treatment centers. Through the network, they are able to provide treatment for individuals no matter where they happen to be on their recovery journey. They offer medically sanctioned therapies like individual counseling and peer group counseling as well as some holistic and alternative therapies that support lasting recovery.

Resurgence is continuing to expand to new locations in order to help more clients escape from the clutches of drug or alcohol addiction. The Executive Team strives to deliver the support each of the treatment centers needs in order to make a tremendous difference in the lives and health of the clients. If anyone is struggling with an addiction to alcohol, illicit drugs, or prescription drugs, Resurgence Behavioral Health can help. They also feature therapies such as Dual Diagnosis treatment and family therapy. Visit them online to learn more or call.
