

Pembroke Pines Lawn Service Takes The Hassle Out Of Lawn Care

July 23, 2021

Pembroke Pines, Florida - July 23, 2021 -
FL based EPS Landscaping & Tree Service LLC is pleased to bring their professional and affordable lawn care services to communities in Pembroke Pines. The company wields several years of expertise in the field and is accustomed to the needs of lawns and trees in Pembroke Pines. Homeowners and businesses are welcome to contact the company today to schedule their next lawn care session.

EPS Landscaping & Tree Service is a full-service landscaping company, which means customers in Pembroke Pines may consider them capable of offering virtually any landscaping service they may need. EPS Landscaping & Tree Service lawn care services, for instance, include grass cutting, lawn trimming, commercial lawn mowing, lawn maintenance, lawn fertilization, fungus treatment, weed control, lawn reseeding and lawn pest control.

According to the company, ?Lawn care may seem like an area that does not take any effort, and this is true to some extent if you do not particularly care what happens to it. However, if you want to maintain a healthy

lawn all year round or have a distinct preference for certain types of vegetation, you are much more likely to have a flourishing lawn if you contract the services of an expert. Fortunately for our customers, EPS Landscaping & Tree Service is the only expert they will ever need. We will not only be able to assess your lawn?s health, we can determine how best to proceed with its care so that it remains healthy as much as possible.?

EPS Landscaping & Tree Service strives to be a lawn care provider that their community can rely on completely. The company and their team of landscaping specialists endeavor to be honest with customers at every turn, accurately describing the state of their property and what needs to be done to maintain it at an optimum level. In addition to this, the company also tries to offer a variety of options wherever possible, giving homeowners and businesses alike the ability to choose a path that is within their budget.

The company adds, ?We may know how to keep your lawn looking its best, but the final decisions regarding what happens to it belongs to you. Our duty is simply to develop a series of strategies and present them to you for final approval. At most, we will offer our professional recommendation, but we will take no actions on your property that you did not explicitly ask for. Your lawn is a part of your identity, and our purpose is simply to help you achieve the outcome you want.?

The simplest of the services offered include grass cutting and lawn trimming, which many customers would be able to do by themselves. However, this can be quite tedious work. EPS Landscaping & Tree Service, however, can take over such tasks and even lend their professional expertise ? the company states that grass trimming, for instance, is best carried out with respect to Pembroke Pines area weather patterns, grass height and even grass color. Customers need not concern themselves with this if they request the company?s assistance.

A recent review from Vanessa A., a customer who gave the company a chance to show them what they were capable of, states, ?Jessica was the best to be in business with! Called her last minute to get some landscaping jobs done, and her team did amazing! Everything looked great, and I love how efficient they were. Wouldn?t work with anyone else. Look forward to working with EPS landscaping on all my landscaping needs.?

Another customer says, ?Highly recommended! Great folks to deal with. Very professional, easy to deal with, very punctual, great and fast work (very detailed and professional) and great price! Will be using them for all my other properties and family properties as well.?

Those looking for a reliable, professional and affordable lawn service in Pembroke Pines are welcome to
