

Dans Traffic Announces Strategic Solo Ads Partnership

July 26, 2021

July 26, 2021 - PRESSADVANTAGE -

Lynden, Washington based Dans Traffic, a digital advertising agency, is pleased to announce the expansion of their Quality Solo Ads capacity. The company is dedicated to offering businesses a way to easily build their traffic in an organic manner. More information about their services can be found at the following link: [Dans Solo Ads Traffic](#).

Dans Traffic states that customers can now expect Tier 1 traffic with buyer traffic capabilities. For those unaware, in digital advertising, specific sets of GEOs (or geotargeted advertising) are divided into three tiers based on their desirability. Tier 3 contains developing countries and consumers with low purchasing power, and Tier 2 includes less competitive locations and lower average income per person. Tier 1 is the GEO set that every online marketer wants to work with, where they can find the wealthiest countries and the most competitive GEOs.

Dans Traffic is able to ensure that their customers can get assured Tier 1 traffic. The company is proud to say that they continually test this traffic to ensure it meets the high standards of their customers.

Dan L'Heureux, owner of Dans Traffic, says, "I have been sending targeted visitors to my clients for the past two years, and I can proudly say that I have helped most of them build a successful online business using my secret traffic source. If you are tired of buying fake, unresponsive and cheap solo ads that don't work and you just want something that works, I can help you. I can assure you that you can make money with solo ads if you implement them the right way, and with my help, you can find the same success that many of my other clients have found in their online business."

According to L'Heureux, the reasons why his company's clients keep coming back to buy more and more premium solo ad traffic is the fact that his traffic converts and produces sales for them consistently. Dans Traffic's guarantees this by constantly trimming dead wood on their list to ascertain that their subscribers are quick and responsive. The subscribers' list also contains actual buyers, with considerable buying power, as

they have bought items worth between \$1 to \$4997 worth of products. The company is quick to point out that they only deal with 100% Tier 1 traffic, as their past results have shown that Tier 1 countries always buy.

Dans Traffic additionally provides a funnel review service for companies that are concerned about whether their funnel works with their list. L'Heureux says, "You don't need to worry about any such things. With my experience, I'm sure I will be able to help you to see which funnel is working and which is not, and wherever it is not, I can help you find a way to make it work."

L'Heureux also advises those who have had bad experiences with buying solo traffic in the past. According to him, if a business is getting bad results while avoiding rookie mistakes, it is probably because the vendor's list is stale, not nurtured right or just low quality. All three issues are sidestepped with Dans Traffic's carefully curated list of high quality leads. Dans Traffic further notes that most on their list love to invest in business opportunity offers, MLM offers and affiliate offers in the Make Money Online (MMO) niche.

Those interested in purchasing from Dans Traffic simply need to visit the website, buy a package, pay via PayPal and then get in touch with L'Heureux over Facebook or Skype to hammer out the finer details and wrap things up.

Similarly, those who want to learn more about Dans Traffic and their services are welcome to visit the company's website for more information. They encourage interested parties to get in touch with Dan L'Heureux directly via email or phone. The company can be reached through the contact form on their website as well. Dans Traffic maintains a presence on Facebook where they frequently post updates, share media and communicate with their customers.
