

Leading Holistic-focused Florida Clinic Enjoys Growth

July 26, 2021

Saratoga, California - July 26, 2021 - PRESSADVANTAGE -

Clearwater, FL - Root Causes Medical Clinic has seen a surge in new patients since opening its Clearwater, Florida location.

Root Causes Medical Clinic has enjoyed a steadily growing number of patients who rely heavily on their approach to alternative, holistic healthcare. Since opening their new clinic in Clearwater, Florida however, the new location has seen an explosion in new patient onboarding.

Founded by Drs. Vikki and Rick Petersen, the Root Cause Medical Clinic brand has become synonymous with unparalleled alternative healthcare solutions, all provided with a completely natural and holistic approach rooted in the philosophy of healthcare as nature intended. Floridians seem to be embracing this philosophy as well and the Clearwater clinic sees steady foot traffic and call-ins throughout each day it is open.

"As time goes on, more people are waking up to the fact that corporate pharmaceutical companies and conventional hospital systems cannot, and in many cases will not, offer solutions that address the root cause of the patient's issue," Dr. Vikki Petersen says. "Our approach is different. Highly personable, detailed is

designed to create a fully comprehensive view of what ailments need to be addressed. From there, we design a care plan from the ground up that is built entirely for one purpose: to achieve the patient's health goals.

This approach to care does not include any synthetic prescription medications or substances created in a lab. Everything Root Causes offers is grounded in the natural world, and carefully crafted to only include the finest natural ingredients available.

As with its other location, the Clearwater, FL clinic also offers the full suite of care services its Saratoga, CA branch does, which includes functional medicine practice, physical therapy, chiropractic care, nutrition consultation, personal fitness programming, and vitamin injections, and nutritional IVs.

The company's primary clinic and store is located in Saratoga, CA, but it also services patients across the country via its prolific and highly popular virtual consultations (telemedicine) service.

About Root Cause Medical Clinic

Root Cause Medical Clinic is staffed by a uniquely qualified team of doctors that are ready to help determine what supplements will work best for every customer who comes through their door. Offering only the best, safest, and most efficacious supplements available, their online and brick-and-mortar stores are the result of decades of experience, culminating with a superior catalog of products that will help you achieve and maintain good health, and start living your best life.
