

NYC Ultherapy Provider Rejuvenation Clinic Announces New Website

October 01, 2015

October 01, 2015 -
Rejuvenation Clinic today announced their new website dedicated solely to their Ultherapy treatment division for their customers in NYC. The new website fills a void where customers considering natural face & neck skin lift can now access more information about Ulthera and the Ultherapy procedure.

?Our new Ultherapy website at NYC Natural Facelift is modern, sleek and mobile responsive. It showcases many news videos and customer videos that are very informative for the prospective Ultherapy client?, states Roman Wexler, Clinical Director.

Ultherapy is the only FDA-cleared procedure to non-invasively lift the eyebrow, neck and under-chin. It is also FDA-cleared to improve décolletage lines and wrinkles. Ultherapy is a non-surgical, no downtime treatment and a patient can be done with a treatment in about one hour. Ultherapy is an alternative to traditional plastic surgery.

Wexler says, ?We also have two informational reports that customers and download from the new website. A Patient Consultation Packet and a What to Expect After Treatment Chart. These are great resources that

everyone considering Ultherapy should download.? Wexler continues to add, ?NYC Natural Facelift is also an ecommerce website where customers can securely purchase Ultherapy packages and deals directly on the website. We also have our most popular Botox deals on the site also which is a great compliment to Ultherapy.?

Consumers looking for information on Ultherapy in NYC can contact Rejuvenation Clinic by visiting their new website at http://nycnaturalfacelift.com.
