July 29, 2021 - PRESSADVANTAGE -

Long Beach, California ? Tree Service Experts Long Beach has helped a property owner in Long Beach city increase his property?s value. According to the property owner, the value of his property went up by over 25% after Tree Service Experts Long Beach trimmed his trees.

Speaking after selling his property, the property owner had the following to say, ?I put the property on the market last year. All this time I was thinking that since I was selling the property, I didn?t need to invest in tree maintenance. Several buyers had already expressed interest in the property. However, I wasn?t happy with the money they were offering. I called a friend who had sold his property last year but one. He told me that trimming my trees may raise the property?s value. I followed my friend?s advice and worked with Tree Service Experts Long Beach to trim my trees. True to my friend?s word, my property attracted 25% more money than what was initially offered.?

?Property buyers are attracted to properties that look good to the eye,? said the Tree Service Experts Long

Beach CEO. ?And if your property has trees on it, tree trimming may be the only thing you need to give the property a facelift before putting it on the market. We no longer get surprised when our customers tell us that our tree trimming helped them raise their property?s value ? this is something we have heard from hundreds of property owners we have worked with.?

Tree Service Experts Long Beach is a professional tree service company that handles tree trimming, tree pruning, tree removal, tree emergencies, and stump removal. The team boasts a team of experienced professionals, something that helps it produce positive results for every customer.

The company reports that it takes all the necessary steps to ensure maximum safety during tree care. ?We wouldn?t want to put a dent on your property while you are planning to put it on the market,? said the company?s chief of field operations. ?For this reason, we plan every project carefully before execution. Also, the fact that we have an experienced team and modern tools to boost safety reduces the risk of property damage to zero.?
