

Plano Locksmith?s Latest Blog Discusses the Benefits of Using Keypad Locks at a Business

August 11, 2021

August 11, 2021 -

DML Locksmith is a Dallas area lock and key specialist that offers a wide variety of commercial, auto, and residential locksmith services. This reputable locksmith company is also known as one the likes to keep its customers up to date on the latest trends in the industry. One of the ways that the company does this is by posting many informational blogs on its website. One of its newest blogs describes the benefits of using keypad locks at commercial properties. This new blog is titled ?Benefits of Using Keypad Locks on Your Business?. It will give business owners and managers some good insight as to whether or not switching to keypad locks at their businesses is something that?s right for them. All of the company?s helpful locksmith-related blogs such as the one just mentioned can be seen on their website at https://www.dmllocksmith.com/.

The company representative, David Elhadad, says, ?It used to be that when you owned or managed a business with employees, distributing and updating keys seemed to always be a continual source of frustration. That no longer has to be the case with the many types of quality keypad locks that are available these days. These keyless locking devices have transformed getting employees in and out of a business or into restricted areas from a major chore to a process that takes little extra time to initiate and maintain. We

are pleased to have added our latest blog that talks more about the benefits that businesses get when they make the change to modern and smooth operating keypad locks.?

This new DML Locksmith blog started by acknowledging that business owners and managers have better things to do than getting keys made and distributed and also periodically get locks rekeyed to keep their building?s security at a high level. Keypad locks significantly reduce the amount of effort it takes to control the entry and exit points of any business. The recently posted blog article then went on to describe what are keyless locks and how they function. It also talked about how valuable it is for companies to have keyless entry locks controlling entry into such places as storage rooms, warehouses, secure areas, and even at every exterior entrance point. This blog also talked all about the upgrade in convenience and business functionality that keypad locks provide. The blog wrapped up by stating that the staff at DLM Locksmith is always happy to discuss with any Dallas area business how adding keypad locks can increase their lock security and help make maintaining entry point security much easier. Business owners and managers that wish to read this new DML Locksmith blog in its entirety can do so here at https://www.dmllocksmith.com/post/benefits-of-using-keypad-locks-on-your-business.

Those that have had commercial lock and key work done by the lock techs at DML Locksmith have been very pleased with the results. Kaneki Ken stated, ?I had a commercial keypad lock installed the very same day that I called. David arrived fast and answered all of my questions. DML Locksmith is very convenient to work with.? Mike A. proclaimed, ?David was awesome. He arrived on time and rekeyed all our doors quickly. At the last minute, I mentioned needing a faceplate for my door, which he installed at no extra charge. Very friendly and definitely knows his stuff. I would definitely recommend this company and use them again in the future.?

Elhadad went on to mention that they can help businesses out with all sorts of commercial lock and key tasks such as building lockouts, safe combination changes, panic bar installation & repair, and lost key replacement. They also offer such important car locksmith services as key duplication & replacement, broken key removal, vehicle door unlocking, and ignition lock cylinder changes. He says that they are available 24/7, 365 for emergency lock and key services and they can help homeowners out with any residential locksmith needs that they require. This family-owned and operated company takes pride in helping those in Dallas, Plano, Allen, Frisco, Wylie, McKinney, and Carrollton out with any commercial, residential, or automotive locksmith need that they have. People in these areas that would like more information on the top-notch locksmith services that DML Locksmith offers can visit their above-mentioned website or go to their Facebook page which can be found at https://www.facebook.com/dmllocksmithservices.
