Experience Highlights the Many Attributes of Dentist Wollongong

August 18, 2021

August 18, 2021 -
Ambience Dental is a modern day clinic that?s known for offering its patients a well-rounded dental experience. That includes everything from being warmly greeted when they walk into the office to being treated in exceptionally clean and comfortable facilities. But everyone that goes there for dental treatments admits the heart and soul of this dental practice in Fairy Meadow, near Wollongong, are the many years of experience that their professional dentists bring to their jobs every day. A figure that adds up to well over 100-years of professional dentistry when the experience of their reputable dentists is combined.

It all starts with the clinic?s founder Dr. John Pearman who started in practice back in 1979 after getting his degree from Sydney University in 1978. He started out doing all types of general dentistry but out of that his specialty of placing crowns and bridges to take shape. A specialty that Dr. Pearman has steadily perfected for over 20-years now. This trusted dentist not only puts his patients at ease with his 42 years in the Dental field but many patients enjoy hearing him talk about his successes and failures on his many fishing trips to the Northern Territory and South Australia. In his some 41-years in practice, Dr. Pearman has also found time to give back to his community and others. A great example of that is Ambience Dental setting up a facility in an underserved area of the Philippines as part of an ongoing Rotary Medical/Dental mission.

Not far behind Dr. Pearman in experience is his longtime partner Dr. John Saad. Dr. Saad boasts of having over 36 years in the dental field. Together he and Dr. Pearman have steadily added to the dental treatments that this Wollongong dentist offers and now can claim to be one of the most progressive and trusted dental practices in their area of New South Wales. As the acting head of their clinical team, Dr. Saad is known for placing a high value on patient care and that is why all of the dental professionals at the clinic make sure that they treat their patients in a non-traumatic and compassionate manner. Something this dentist greatly contributes to himself ever since completing an advanced sedation dentistry course back in 1987.

Rounding out the big three dentists on the experienced team at Ambience Dental is Dr. Ahmed Bedeir. This most adventurous member of their Dental team has been in practice since 2003. His dental resume includes a substantial background in oral surgery, oral implantation, and he is one of the foremost root canal experts in New South Wales. When not helping his patients improve their smiles, he can be found surfing, snowboarding, and motorbike riding. An accomplished athlete also, Dr. Bedeir is a Wollongong comp first division tennis player and tasted success with a championship in the Egyptian Basketball League in 1996.

Other notable dentists on staff include oral surgeon Dr. Ahmed Bassim who started in practice back in 2003 and pediatric and restorative dentistry specialist Dr. Amna Khattak who has over 11 years of professional dentistry experience.

A clinic representative, Vivek Reddy, says, ?Here at Ambience Dental, we are proud of all of the experience that our dentists bring to their work every day. Our clinic has truly used all of that experience to constantly update, improve, and perfect the many different cosmetic and general dentistry services that we offer. Our dentists will continue seeking the training and knowledge that is necessary to maintain our status as one of the most well-rounded dental facilities in Wollongong and all of New South Wales.?

Reddy went on to say that the experience that all of their staff brings to their jobs at their state-of-the-art facility is pretty impressive. This includes all of their oral health assistants and their office staff. He pointed out that this means whether someone is getting general dentistry, sedation dentistry, cosmetic dentistry, implants, full-mouth rehabilitation, veneers, teeth whitening, or crown and bridge work done, those treatments will be done by someone who has performed those dental procedures many times over. As a progressive dental practice, they are also constantly adding advanced dental treatments such as their less-invasive All-on-Four dental implant procedure and their advanced digital smile design services. The clinic representative added that anyone looking for a reputable and experienced ?best dentist in Wollongong' is welcome to contact them by phone, email, or website contact form.
