Get the Smile of One's Dreams with Digital Smile Design, Double Bay

September 07, 2021

Sydney, New South Wales - September 07, 2021 -
Sydney, 17 August, 2021. FY Smile is a dental clinic based in Double Bay, Sydney which is an official Digital Smile Design (DSD) Clinic run by Dr Fadi Yassmin, a Key Opinion Leader for Digital Smile Design.

A service which takes the guesswork out of dental treatment, Digital Smile Design treatments result in brighter and more natural-looking teeth, straighter teeth, less crowded teeth and teeth that are balanced in size and shape. Patients can preview the final outcome which gives them the confidence and assurance to go ahead with the treatment. Natural teeth aren?t perfect looking but each person?s set of teeth is unique and differs from person-to-person. Every smile created by Digital Smile Design will be personalised to suit every individual?s facial features and personality.

The Digital Smile Design treatments are straightforward and includes photos, x-rays, moulds and videos taken of the mouth to create a digital library of smiles. Using this digital library, a detailed treatment plan is provided and an accurate example of the final result is previewed before the treatment even begins.

To find out more about Digital Smile Design (DSD) and other dental services, please contact FY Smile on 02 8319 5567.

FY Smile

At FY Smile, we are dedicated to the QIP approach to dental practice. The QIP standard is the result of a collaboration with the Australian Dental Association and lets all our patients know that your safety is our number one priority.
