Cape May NJ Plumber?s New Blog Post Points Out the Benefits of Having Smart Water Devices

August 25, 2021

Lower Township, New Jersey - August 25, 2021 -
Majewski Plumbing is a Cape May, NJ area company that likes to keep its customers in the know about the latest and best trends in plumbing products. A good example of that is this reputable plumbing company just posted a new blog to its website which talks all about the advantages of having modern smart water devices installed. These devices will not only save any home or business owner money on their water bill, but they will also help conserve one of the world?s most precious resources. This blog and many others can be seen on the Majewski Plumbing website that?s found at https://www.majewskiplumbing.com/.

The company owner, Frank Majewski, says, ?Many people do not realize that there are now many different types of smart water devices available for a home or business. It even surprises me how creative some manufacturers have gotten as far as designing products that can save water goes. We are always willing to take the time to talk to anyone about smart home technology for plumbing. Our new blog will also give some insight as to how people can benefit from having smart water devices installed at their home or business.?

This new Majewski Plumbing bog started by mentioning that these days people are surrounded by smart technology in every aspect of their lives and home plumbing is no exception. It stated that innovative companies such as Moen now manufacturer everything from smart faucets to whole-home water monitoring systems that can prevent flooding. Several different Moen smart plumbing devices are briefly described throughout the blog article. Some of the advantages of smart plumbing devices that were talked about including technologically advanced products that cannot only be controlled from a phone but also look good. Water security and conservation were also pointed out as highlight features of smart water devices and the ability to monitor home water usage to look for areas where consumption can be lessened. The blogged wrapped up by saying that more Southern New Jersey homeowners than ever before are turning to smart plumbing devices and they at Majewski Plumbing are always ready to help with this. This complete blog article can be seen here at https://www.majewskiplumbing.com/post/the-benefits-of-smart-water-devices.

Majewski also talked about the many different plumbing services that they offer. This includes being well-established when it comes to doing plumbing installs for new construction or complete plumbing renovations. He says that they also can do all sorts of custom plumbing projects such as getting water to outside bars, showers, kitchens, and patio areas. The company?s techs are also very good at detecting and resolving plumbing leaks along with eliminating slow and clogged drain issues. The company owner mentioned that they are also often tasked with winterizing the many vacation homes in their area to keep major plumbing mishaps from occurring during the harsh New Jersey winter months. They are also one of their area?s leaders when it comes to energy-efficient tankless water heater installation and repair.

This is also a very highly rated plumbing company. On their Google Maps business listing alone, Majewski Plumbing is rated a 4.9 out of a possible 5-stars on over 250 reviews. Examples of glowing reviews from that listing include this one by Joe Napoli who wrote, ?Fantastic - they called me back right away and I had a quote and date set for the work right away. They showed up on time, were friendly, and did great work very quickly. Will definitely use again!? Lorraine Santiago stated, ?Installed tankless water heater. I am so very happy that I contacted Frank to speak with my husband. He was very calm & detailed with his explanation. Workers arrived on time, were very neat & professional. They did an amazing job. I am so very happy with the work done. I highly recommend. I will definitely call on Frank for future plumbing work.?

More information on this Cape May plumber?s services or how to discuss having smart water devices installed by them can be seen on the company website or by going to their Facebook Page at https://www.facebook.com/MajewskiPlumbing/.
