

TreeCareHQ Roanoke Celebrates its First 5-Star Review on Google Maps

August 23, 2021

August 23, 2021 - PRESSADVANTAGE -

TreeCareHQ Roanoke is a progressive company that provides its site users with free quotes from trusted local tree service professionals in the Roanoke City and county area. Some of the professional tree services that they refer customers to include tree removal, tree trimming, stump grinding, land clearing, storm cleanup, and even 24-hour emergency tree assistance. This company has even proven to be very forward-thinking when it comes to how it gets its helpful service out to the public. A good example of that is they have recently obtained a Google Maps Business Listing. Along with that, the company is pleased to announce that along with that it has received its first 5-star review on that listing.

The above-mentioned glowing review comes from Lori Everett, who stated, "TreeCareHQ was very responsive and sent two tree companies out for estimates on the same day that I called. Both were reasonable and the contractor that I hired did a great job removing a large pine tree. Good service and I'll definitely call again if needed."

A company representative, Bradley Benner, says, "We were really excited when our new Google Maps Business Listing was up and running. It marked an important step in our continuing effort to get the word out that we are the best when it comes to helping people in the Roanoke, VA area find competent tree service professionals. There is no better example of that than the first 5-star review that we received on that listing. It's something that all of us here at TreeCareHQ Roanoke are very proud of. We pledge to continue doing whatever it takes to generate highly complimentary reviews on our service."

Benner went on to say that although this new 5-star review was short and to the point, it still highlights many of the attributes that they as a company bring to the table. The first is that they have an agreement with the tree service providers that they represent that they will respond quickly once called upon to give a quote. That is something that those at TreeCareHQ Roanoke recognize as an act that sets the tone for a customer's entire experience with them. It also pointed out that they usually send more than one tree services provider to provide a quote. He says this ensures a customer that they not only can choose a tree professional that they not only feel comfortable working with but that they will also be given a competitive price for the job. The company representative also mentioned that this very complimentary review stated that they were very happy with the work that was performed for them. This is because they go to great lengths to find reputable tree companies to represent them out in the field. These tree service providers not only have to do high-quality work but they must also exhibit that they know how to treat a customer the right way. He says that this is something that that they at TreeCareHQ Roanoke will never compromise on.

The company representative stated that TreeCareHQ Roanoke is also happy to announce that they are very pleased with the attention that their newly created media room is bringing to the hard work they have put into their website. It can be viewed here at https://www.pressadvantage.com/i_organization/treecarehq-roanoke. He says it's something that is proving to be a valuable tool when the company has important announcements to make. It now includes their first press release which was titled "TreeCareHQ Roanoke Expands with New Location in Roanoke County, Virginia?". This is a news piece that talks all about how and why the company decided to expand its services in the Roanoke, Virginia area. Benner added that even their Facebook Page has been redone and that it too will now include reviews and other important information for those that are looking to get tree services done in and around the Roanoke area. There are also many photos on that page of their competent tree service providers in action. He emphasized that they will continue to be progressive when it comes to making their service one that is customer-friendly and continues to hook up customers with the best tree professionals in their area.
