SafeAir Certified Mold Inspection Is Proud to be Kennesaw's 5 Star Rated Mold Inspection and Testing Company

August 18, 2021

August 18, 2021 -

SafeAir Certified Mold Inspection Inc. is now the most reviewed mold inspection and testing company in Kennesaw, GA. Founded in 2009 by Jeremy Shelton, SafeAir has been serving metro Atlanta for more than a decade. During that time, Mr. Shelton has become one of the foremost experts in indoor air quality in the state of Georgia. Combining his vast experience in indoor air quality and emphasis on customer satisfaction, it is no surprise why SafeAir has been one of the top mold inspection companies for the last 12 years.

In a recent review that SafeAir received on their Google My Business Profile, customer Kim Clark describes her experience with the company, "We scheduled an appointment with Safeair to test our home when we noticed mold growing on some clothing and other items. They identified the source of the mold and gave me a report with recommendations to remove the mold contaminants. They were great to work with and I would recommend them to my friends and family."

SafeAir Certified Mold Inspection Inc. specializes in indoor air quality and allergens. SafeAir's team of professionals are full-time employees and not subcontractors, which are used by many of the other mold

inspection companies in the state, ensuring better service and thorough inspection and analysis from start to finish. SafeAir now has more than 175 perfect 5-star reviews online, and reviews like Ms. Clark's are not uncommon. In another recent testimonial, Kirk Wickers describes his experience as, "Working with SafeAir was great. I have severe allergies to mold and needed help testing a home that I was in the process of buying. I researched mold testing companies and chose SafeAir after speaking with Jeremy. Jeremy tested the home and did a great job. I had a report back promptly and he answered all of my questions. I recommend them for all of your mold testing needs."

As homeowners and employees spend more and more time at home due to the pandemic, the general public is becoming more aware of the importance of what is in the air they breathe. Homeowners should seriously consider having their home tested. Phone consultations are free, and the information provided by one of their experts could be life-saving.
