

Auto Glass Repair Company in San Diego Offers Mobile Windshield Repair or Replacement

August 23, 2021

August 23, 2021 - PRESSADVANTAGE -

SD Auto Glass San Diego is happy to announce that they are offering mobile windshield repair or replacement in San Diego and neighboring areas. This service is for those whose windshield has cracked, has been smashed, or has been broken. They understand how inconvenient it would be for vehicle owners to bring their car to the shop, particularly when the windshield is damaged. This is why they provide a mobile repair and replacement service, which means they will go to the location where the vehicle is parked and do the repair or replacement there. And because a car with a damaged windshield may be taken advantaged of by thieves, their auto glass professionals will always strive to reach the location within 60 minutes after the client's call.

Chris Lazar, a spokesperson for SD Auto Glass San Diego, says, "You can rest assured that our evaluation of your windshield or auto glass problem will be as honest and as transparent as possible. We will tell you if the crack or the chip or the damage can still be repaired, or if it really requires a replacement. We will exhaust all avenues to avoid possible replacement because we know that such will cost you more."

SD Auto Glass San Diego has developed the reputation of being one of the top windshield repair and replacement service providers, having served thousands of customers, with the company having more than 20 years of experience. They use the most up-to-date technology in the repair of windshield chips, cracks and even broken auto glass. They can handle all brands of auto glass for any type of vehicle. And clients are assured that they will only recommend windshield replacement when it is absolutely necessary. Their service area is San Diego and its surrounding areas.

They also make sure that their team is made up of certified auto glass technicians who have earned a certification and have undergone formal trainings. And to ensure that they are always knowledgeable on the latest developments on auto glass repair and replacement, they are regularly sent to trainings and seminars.

They advise car owners not to ignore small chips or cracks on their windshield because the defect may worsen in just a matter of hours and may require a full replacement instead of just a repair. When they are in

doubt, it would be best to have the windshield inspected by an auto glass professional. They provide same day service so there would be no need worry about a windshield crack that may worsen overnight.

And car owners can rest assured that their certified auto glass professionals will go to the location bringing along with them the most up-to-date equipment and tools. They will arrive at the location with vans fully loaded with high-quality materials and supplies needed for windshield repair or replacement. They have gained a lot of experience in working with all kinds of motor vehicles, such as sedans, SUVs, pick-up trucks, buses, vans, recreational vehicles, and more. And they can handle cars from various manufacturers, such as Toyota, Honda, Ferrari, BMW, and more.

If the vehicle's windshield has been severely damaged and there is no alternative but to have it replaced or the owner simply wants to have an old windshield replaced, the auto glass technicians from SD Auto Glass San Diego are ready to provide windshield replacement services. This will require a number of steps. First, they will remove the trim and then lift the old or damaged windshield with large suction cups with handles. Next, they will clean out and prepare the pinch weld, which is the small gap between the windshield and the body of the vehicle. Dust, dirt, and old urethane may be found in the pinch weld and these will need to be removed. The next step would be to apply urethane to the edges of the pinch weld. This will serve as the adhesive or glue that will firmly hold the windshield in place. And finally, the new windshield is installed.

Those who are interested in knowing more about the services provided by SD Auto Glass San Diego can check out their website, or contact them on the phone or through email. They can also check out their listing on Google My Business to important information about the company. They are open from 8:00 am to 8:00 pm, every day of the week.
