Ambience Dental Offers Best Dental Implants In Wollongong

August 24, 2021

August 24, 2021 -
Fairy Meadow, New South Wales based Ambience Dental is reaching out to the wider community to share information about the unparalleled dental services they have on offer. A practice that has been over 40 years in the making, Ambience Dental is the result of the union of three talented and professional dentists who pride themselves on providing high-quality dental care in a warm and supportive environment.

Rebekah Spiteri of Ambience Dental says, ?If we have missing or damaged teeth, it can have a significant impact on our lives. It affects what we eat, how we smile and the way we look. Fortunately, we live in a time where tooth implants offer the ideal solution: replacement teeth that look, feel and function just like new. With dental implants, you can give your smile the permanent support it needs and live your life to the fullest. Ambience Dental is dedicated to offering you the support your smile needs.?

Ambience Dental offers a range of implant options. Patients can choose to get a dental implant or a dental bridge, both of which are common options to help maintain facial shape and avoid difficulties with eating or speaking. As Ambience Dental explains, dental implants are artificial tooth roots that are usually made from titanium and are mounted into the jawbone with screws to hold a crown or bridge in place. On the other hand,

dental bridges are false teeth (usually made from materials like porcelain or plastic to match the patient?s natural tooth color) held in place by the teeth around the missing tooth. Dental bridges can cover one or several missing teeth at once, as opposed to dental implants.

There is also another option provided by Ambience Dental, which is the All on Four. All on Four is an advanced dental implant technique that has revolutionised implant dentistry. The implants themselves are similar to traditional dental implants; they are small titanium screws that are placed within the jawbone to replace the tooth?s root. However, conventional implants can only support a few replacement teeth (with a full arch requiring eight or more) whereas with the All on Four technique, an entire arch can be supported with just four dental implants. More information can be found at the following link: Teeth Implants Wollongong.

Given how complicated dental implant processes can be, especially for treatments like the All on Four procedure, Ambience Dental emphasizes that it is very important to ensure that a patient chooses the right dentist. Important details to look for include the dentists? experience, their qualifications and the standard of materials that they use. Ambience Dental is proud to say that the team at Ambience Dental are some of the most experienced tooth implant dentists in the Wollongong area. They have been actively involved in implant dentistry for over 20 years, and they continue to expand their knowledge and education as time goes on. Dr. Ahmed Bedeir has a Masters Degree specifically in Oral Implantology. Dr. John Saad has travelled extensively to study alongside implant-specialists such as Dr. Steven Chen.

Considering the extensive number of dental implant cases carried out at Ambience Dental, the dental clinic has modern, state of the art facilities that ensure the utmost comfort for their patients. They have cutting edge dental equipment and facilities to put everyone at ease and can offer appropriate anaesthesia, including IV sedation. In fact, to help their anxious patients, Ambience Dental has an entire wing dedicated to sleep sedation dentistry, meaning that dental treatments can feel like a dream.

The dental clinic has a 4.7 out of 5 Star rating on the Google platform due to their dedication to providing great dental services. Andrew Thomas says in his recent review, ?Administration people are efficient and friendly. Dental surgeon and support staff were friendly and proficient, and took the time to answer questions in a considered manner.?

Those who want to learn more may reach out to the Treatment Cordinator Rebekah Spiteri of Ambience Dental via email or phone to follow up on any further concerns or questions. Additionally, social media users may follow Ambience Dental on their preferred platforms in order to stay abreast of their latest activities, announcements and offers.
