"When we visit a private business, we trust that there are safety measures put in place to protect us. Unfortunately, some business owners do not implement adequate regulations to protect their customers. While some may not believe this is an issue, business owners have a legal obligation to ensure the safety of those surrounding their property," explains managing attorney Aaron Blank.

See their previous press release to learn more about the Dundalk personal injury lawyers who diligently work to educate the public.

Aaron Blank continues, "By hosting this webinar, we hope to inform victims on their legal options if they have sustained injuries on private property. Many victims are not aware that a business owner can be deemed negligent if someone is hurt on their property due to an unsafe environment. We want to connect with community members to help them determine the best course of action to ensure they get the justice they deserve.?"

The insightful webinar will be held on September 14, 2021, at 5:00 PM via Google Hangout.
