

## **Central Wisconsin Company's Office Cleaning Solutions Nicely Compliment its Reputable Damage Restoration Services**

*August 27, 2021*

August 27, 2021 - PRESSADVANTAGE -

Superior Cleaning & Restoration is a Plover-based company that has a well-established reputation in Central Wisconsin for providing quality damage restoration services. Another of this company's popular services is the wide variety of office cleaning tasks that they can do for area businesses. Something that nicely compliments its damage restoration and the other highly-rated cleaning services that it offers. Its office cleaning services are something that this family-owned & operated company has been doing since its inception in 1987 and have continually strived to perfect over the years.

The company owner, Darren Darner, says, "There are few things that say more about a business than the statement having an immaculately clean office makes. It tells prospective customers that a business knows the right way to operate and often helps create a more productive work environment. We here at Superior Cleaning & Restoration also realize this and that's why we take such pride in the thorough office cleaning services that we offer. Our company spares no expense when it comes to training our cleaning personnel and providing them with the state-of-the-art equipment necessary to do their jobs very well."

Darner went on to describe the various office cleaning tasks that they offer. This includes their advanced floor care services. He says that no matter what type of flooring an office space has, they have the manpower and equipment to keep it looking great. That includes knowing the right way to maintain and shine wood, linoleum, tile, vinyl, polished concrete, and other types of office flooring. He added that for those businesses that have extensive carpeting throughout them, they at Superior Cleaning & Restoration will often work hand in hand with their sister company, Carpet Pro Cleaning Services. This sister office carpet cleaning company is one that he says definitely takes carpet cleaning to a much higher level. That includes getting even high-traffic carpet areas as close to looking as new as possible. Other cleaning services that were mentioned include the company's advanced fogging services. Something which has become even more important for business with the added attention that paid these days to office virus and germ protection. The company owner also mentioned that they are also experts when it comes to eliminating foul odors in a workplace. Their ceiling-to-floor and wall-to-wall janitorial services include everything from removing trash, dusting, mopping, and to providing thorough bathroom cleaning services. He stated that they are always willing to meet with a Plover area business and discuss their individual office cleaning needs. Then they can tailor an office cleaning plan for them that covers just specific cleaning tasks or a more comprehensive cleaning routine.

The company owner mentioned that they offer many more cleaning services than just office cleaning. Among those are their home carpet, upholstery, and tile & grout cleaning services. Tile & grout cleaning is an especially popular service of theirs because of how difficult and time-consuming this task can be without the right know-how and equipment. Those that have used this company's cleaning services have been very pleased with the results. Hanna Fletcher's 5-star review stated, "We love Superior Cleaning & Restoration! We've had both our vehicles and carpets cleaned by their team and could not have been happier with the results! They are so professional and knowledgeable. We highly recommend!" Stephanie Mueller proclaimed, "Excellent company - best you could ask for!"

Darner says that they are also very proud of the water damage restoration services that they are often called upon to do. He stated that they respond quickly when someone needs emergency water removal because they realize that the faster they react, the less chance water in a flooded area has to cause lasting damage that necessitates expensive repairs. The company owner also talked about how they are also very good when called upon to do mold remediation, odor removal, and smoke & fire damage restoration. Those in Central Wisconsin that would like more information on this company's office cleaning Plover services can easily contact them by phone, email, or website contact form.
