

Keyforge: From Sole Proprietorship to Corporation

August 23, 2021

August 23, 2021 - PRESSADVANTAGE -

Keyforge Web Design and SEO Philippines are proud to announce their major milestone in transitioning from a sole proprietorship to Corporation. This will allow them a more extensive range of clients, which they are eager for considering how well-equipped with knowledge and experience they already are.

Through the years, Keyforge Web Design and SEO Philippines had given its clients many successful projects. They are confident that through their new status as Corporation, they can offer more client satisfaction than any other design and search engine optimization company worldwide.

Keyforge is a company that provides services in web designing and SEO site management based in the Philippines. They help clients optimize their SEO websites to improve rank in search engine result pages (SERPs). Keyforge has been helping out consumer websites reach their target market since they were established.

Keyforge offers two services, including:

Search Engine Optimization

Search Engine Optimization (SEO) has become an essential part of digital marketing because there have been such drastic changes over the past decade regarding how companies use Google and other social media sites like Facebook by performing billions upon billions of searches per month. Creating great content is the most crucial part of any SEO campaign. Good keyword research and content creation are fundamental parts of this process; therefore, Keyforge focuses on these two aspects, which can help their clients reach their goals.

Website Design & Development

Successful online businesses need a great website that will serve as the face of their company in the internet world. A good site is more than just attractive graphics; it's also about building up credibility and making new connections with potential customers, suppliers, or partners for any business.

Keyforge is still open for business despite this Pandemic. Since the COVID-19 crisis in Philippines, KeyForge has taken extra precautions to reduce risk of contracting virus. The management team have taken extra precautions to protect customers from contracting the virus by implementing additional cleaning measures throughout their premises and suggesting where possible, that people contact them through email or direct message on their website instead of in person at this time. KeyForge will continue following recommendations made by the Department of Health (DOH) as information changes.
