September 13, 2021 - PRESSADVANTAGE -

Panama City, Florida based Ellis Agency Insurance is taking steps to bring their services to new locations across the state. The company believes that their specialized assistance can benefit many more people across the region, and they welcome inquiries from those who wish to learn how they can acquire lower insurance rates. Not just lower insurance rates but better insurance value. We have actually doubled coverage while maintaining similar rates.

Ellis Agency Insurance's principal agent and owner, Johnny Ellis, is still overseeing the day to day operations of the company and keeping in touch with all three existing branches while also finding time to look for other locations or agencies to acquire. The Florida panhandle may be the general market, according to Ellis, but he has not ruled out metro areas like Orlando, Tampa, Jacksonville and even Miami. The insurance company primarily focuses on home and auto but has a full line of carriers that are able and willing to provide anything a client may need. The insurance provider prides itself on offering lower insurance rates at every possible opportunity. "We are proud to continue the services you've come to appreciate, and as we bring new services and companies in we hope you will continue to grow with us," the insurance company says. "The Panama City office is our third office that has grown out of our Marianna, FL office, and of course it all started in Altha. Since we offer a full line of insurance coverages of all types and it is affordable, many people are attracted to us ? but our friendly and knowledgeable staff is what keeps folks coming back. We appreciate the constant flow of referrals from our satisfied clients, and we promise we will work hard to not let you down."

Ellis Agency Insurance's Panama City office is one of the largest in terms of population served. The company's commitment to offering quality service in other locations remains unwavering, however, and any client can be sure to get the very best service no matter where they might go.

Panama is a story with a rich, vibrant history but it is not without its dangers (like any city in the country). Panama City, for example, is known as the Wreck Capital of the South due to the number of ships that get

wrecked in the gulf. As with anywhere else in the world, it is important to be ready for anything in Panama City, and a good way to prepare for everything is to have adequate coverage for every possible event. Those interested may get in touch with the firm here: <https://ellisagency.net/contact>.

Ellis Agency Insurance says. ?Let us see if we can help you lower your rates or get more coverage for the same amount of money. Even if we can?t save you money, we are going to continue to be here for the time you need us. Please check with us frequently on your coverage so that you always know you are getting the most for your money! Ellis Agency Insurance in Panama City will be here at all times. The Panama City insurance company regularly receives 5-Star reviews from pleased clients on various platforms. One Google review says about the company, ?I am a new customer, and I am so thankful that I found this agency. Miss Heidi went far and beyond to help me with a different insurance problem I have, and I don't know what I would have done without her help. I highly recommend this agency for all of your insurance needs. Everybody in the office is a great example for best customer service. Thank you so much again, Doris.?
