Louisville, Kentucky ? When a recent storm destroyed Daniel?s trees, the homeowner turned to Louisville Tree Service Experts for tree removal. After removing 15 trees from Daniel?s landscape, the tree service company noticed how bare his home looked. This morning, Louisville Tree Service Experts just delivered 10 trees to Daniel?s home.

Speaking after delivering the trees, the company?s CEO had the following to say, ?The storm did damage a lot of money and a beautiful landscape. However, since we can't control the weather, all we can do is replace the damaged trees and hope for the best in the future. The free trees should help Daniel restart his urban forest.?

A company that has made its name in Louisville through responding quickly to tree emergencies, Louisville Tree Service Experts is home to a team of experienced tree cutting professionals Louisville. The company is known for arriving at the tree emergency sites in less than an hour. ?We respond quickly to emergencies to help homeowners avoid the damage that is often associated with trees falling unexpectedly,? said the company?s CEO. ?When a tree?s stability is reduced by a lightning strike and it leans dangerously over your powerlines, the tree?s removal should be done immediately to help you avoid losing power. It is for this reason we are always willing to handle the emergency tree removal even at night to restore safety.?

Louisville Tree Service Experts noted that in the case of Daniel, the storm left the trees lying down. ?If the trees were left leaning dangerously,? said the company?s chief of field operations, ?we would have arrived here much sooner. However, since the storm left the trees lying down ? which meant they weren?t an immediate risk, this is why we were comfortable waiting until the next day.?

In addition to handling emergency tree service Louisville, Louisville Tree Service Experts notes that it has teams for each tree-related service. The company?s tree trimming team Louisville restores the aesthetic

appeal of trees while the tree pruning team ensures that trees have safe and healthy crowns.
