

Top Orange County Plumbing, HVAC, and Electrical Firm Launches New Website

August 25, 2021

August 25, 2021 - PRESSADVANTAGE -

Orange County, CA - Excalibur Air Heating Plumbing Electrical has rebranded its company and website for improved service to a growing customer base.

In the plumbing and HVAC industry, speed and service go hand-in-hand, says the owner of Excalibur Air Heating Plumbing Electrical, Brian Vardiman. Already a highly rated Orange County plumbing and HVAC company, Vardiman says he has wanted to rebrand and relaunch his company's website after watching the site's traffic (and a number of incoming calls) steadily increase over the past two years. The goal of the new website and subsequent renaming from Best Service was to provide more information in an easier format for Excalibur's many customers. Vardiman says the name change is a nod to the peerless caliber of his team and the services they provide and reflects the top-notch level of excellence the new brand portrays.

"Our commitment to top-level service, lightning-fast response times, and complete trust and transparency needed to be communicated to the customer much quicker," Vardiman says. "Our new website helps relay that message to those who visit it, and by the time they make the phone call or receive a reply via our contact submission form, they know right away they are going to be taken care of."

Excalibur offers virtually every type of plumbing and AC service imaginable, from regular maintenance and installation of new equipment to rapid troubleshooting and diagnostics. Additionally, Excalibur is known throughout the Orange County area for its full line of electrical services, which include rewiring and repair, as well as installation for indoor and outdoor lighting fixtures.

Among Orange County plumbers, Excalibur is one of the quickest when it comes to 24/7 emergency responses. Its staff is on standby and is all well-experienced in handling emergency plumbing, electrical, or HVAC issues no matter the time of day.

?During the hot Orange County summer months, we remain extra vigilant to emergency situations,? Vardiman says. ?A family that loses AC, access to plumbing, or is experiencing some wiring or electrical issue is very dangerous this time of year. We take our emergency response services very seriously so please do not ever hesitate to call us right away, no matter the hour. We are here and ready to help.?
