

E&C Windshield Repair Detroit Offers Mobile Car Window Repair Services in Detroit

August 27, 2021

August 27, 2021 -

E&C Windshield Repair Detroit is happy to announce that they are offering mobile windshield repair in Detroit and neighboring areas. They have fully qualified technicians who are equipped with the proper tools to repair the windshields of all kinds of cars and trucks. Their mobile technicians will go to the location of the motor vehicle to perform windshield repair or replacement, so that vehicle owners will not have to go through the hassle of getting their vehicle with damaged windshield to the repair shop. Those who would like to know more about the company can view on Google Maps their vital information.

Windshields may get damaged unexpectedly at any time. For instance, while driving, a shower of pebbles or large hailstones may suddenly rain on the windshield, causing chips and cracks. These are not just ugly and unpleasant to look at but they can also lead to more serious problems in the future. In some instances, these chips and cracks can be remedied by using DIY windshield repair kits. However, not all kinds of damages can be fixed by using a DIY kit. In addition, the vehicle warranty may be voided if the owner tries to repair the damage himself. And if the car owner messes up in repairing the chip or crack, there is no way to have it redone. The result is that the car owner may be forced to get a new windshield and actually end up spending more than when entrusting the windshield repair to professionals.

There are a number of factors that make the services of E&C Windshield Repair Detroit stand out among the crowd. These include: their 5 star top reviewed mobile auto glass service; their provision of windshield chip and crack repair; their repair and replacement services for rear car windows; their offer of mobile service where they go to the customer; provision of services for car windows and side windows; and cracked auto glass replacement.

Marc Lazar, a spokesperson from E&C Windshield Repair Detroit, says, "Our friendly and knowledgeable technicians will always give you an honest inspection and diagnosis to make sure that you get the best outcome for your vehicle. In most cases we will be able to service your vehicle on the same day. Providing customers with friendly and professional service is what we do best. Give us a call for your windshield repair in Detroit. Or you can find us online by visiting our website."

They offer windshield replacement and chip repair for all car brands and models from Toyota, Honda, Ford, GMC, Audi, Chevrolet, Mercedes, Range Rover, BMW, and more. Those who would like to have a windshield repair or replacement performed for their vehicle can call them to obtain a quick free five minute estimate. If the customer accepts the proposal, they will go directly to the home or office, or the place where the car is parked. Furthermore, walk-in and same day appointments are acceptable. They also offer: car window regulator repair; low cost and budget friendly windshield repair or replacement; free over the phone estimates; side mirror repair; and heated windshields.

That the quality of the work they do is very much appreciated is evidenced by the fact that they have received several highly positive reviews. For example, Pamela L. gave them a five-star rating and said, "Cecil and his partner were on time, and so professional. They had my daughter's windshield repaired in no time. Very kind, and considerate gentleman. I will refer all my friends to this company. Keep up the good work guys." In another five-star review, Doris B. said, "Repaired a chip for us. Service was great. Price was affordable. Great place to use. They came to our home too."

Those who are interested in learning more about the mobile windshield repair and replacement services provided by E&C Windshield Repair Detroit can visit their website at ENCWindshieldRepair.com, or contact them on the phone or through email. They are open from 8:00 am to 5:00 pm, from Monday to Sunday.
