

EPS Landscaping Offers Palm Tree Service In Southwest Ranches, Florida

August 31, 2021

Pembroke Pines, Florida - August 31, 2021 - PRESSADVANTAGE -

Pembroke Pines, Florida based EPS Landscaping & Tree Service is reaching out to the community to share information on their palm tree services.

"Overall, Florida is an excellent environment for palm trees," states Greg O'Connell, a representative of EPS Landscaping & Tree Service, adding that, "These species require as much care, if not more than any other kind of tree, and maintaining your palm tree in good shape can be a significant challenge." He explains that trimming a palm tree is important for shaping when the foliage becomes overgrown.

He continues, "If left unchecked, this overgrown foliage can become a fire hazard, especially its dead fronds. These are more than an eyesore, though you have to be careful when you remove them. There is an appropriate season to prune palm trees, as you will probably want to make the most out of the shade provided by the foliage in the hotter seasons."

The tree specialists explain that other precautions must also be taken into account when pruning a palm tree to avoid causing any harm to it. It is important not to cut more than necessary, allowing the tree to regrow within a healthy amount of time. As many healthy fronds as possible must also be left in place to protect the tree. This will serve to protect the property against the elements as well, as palm trees are more than simple, decorative trees.

Only an expert tree trimmer has the experience necessary to determine the optimal palm tree trimming protocol. Companies like EPS Landscaping & Tree Service offer this service to the community, allowing them to rely on their experienced teams to care for and maintain all palm trees. With several years in the industry and an outstanding reputation backing them up, the local tree care specialists are one of the top options at the disposal of the Southwest Ranches community.

O'Connell states, "We'll make sure that your property is safe from the hazards that overgrown palm trees can present, while also taking every precaution necessary to ensure that your palm tree grows healthily afterward. We are certified, licensed and insured, meaning that you can rest assured knowing that the project is being carried out by professionals who know what they are doing."

EPS Landscaping & Tree Service offers free estimates and consultations to complement their services. They try to help and guide their customers with a no-compromise rundown of the tree service needed. This information is also available for their other services.

The Southwest Ranches tree care specialists have received several customer reviews that attest to the excellence of their services. They are rated as one of the top landscaping companies in the area on the Google platform as well. One of the most recent comments on this space, written by Jake Glaser, says, "EPS came by and did a ?freshen up? of our landscaping. They were fast and efficient! The pictures that were sent prior is what really got the excitement as I could see what it was going to look like!"

Another comment by Vanessa A. states, "Jessica was the best to be in business with! Called her last minute to get some landscaping jobs done, and her team did amazing! Everything looked great, and I love how efficient they were. Wouldn't work with anyone else. Look forward to working with EPS landscaping on all my landscaping needs."

EPS Landscaping & Tree Service offers a wide variety of services, including Landscaping, Tree Services, Lawn Care and Irrigation. Installations, relocations, maintenance, pruning, emergency removals and stump removals are also available upon request, making them a go-to option for most local residents. Their service area includes Southwest Ranches, Coral Springs, Hollywood, Pembroke Pines and Pompano Beach.
