

Vibrant Square Dental Opens New Practice In Vaughan

September 13, 2021

September 13, 2021 - PRESSADVANTAGE -

ON based Vibrant Square Dental is pleased to announce the opening of their new dental practice in Vaughan, Ontario. Local residents may receive a comprehensive suite of services from the experienced, innovative and family-oriented staff at this location, ranging from dental cleanings to dental implants and more. Notably, services are available in Russian, Spanish and Italian. Learn more at the following link: <https://vibrantsquaredental.com/>.

Dr. Maryna Kharkavets, the primary dentist at Vibrant Square Dental, said about the services provided, "We pride ourselves in taking care of all our patient's needs and make it our priority for all patients to feel as informed as possible with every procedure. Our goal is to be known as a place that transforms your smile, a place which delivers the highest level of dental care so that you and your family can smile for generations to come."

Children are valued clients at Vibrant Square Dental, added the clinic's office manager, Tatiana. The team understands that an experience at the dentist's office can be stressful, even frightening for anyone – but especially for a child. She explained that it was important to incorporate a child-friendly approach in their practice, especially given that taking the time to have a conversation with a child as well as creating a playful atmosphere can really help them relax. The rest of the visit then tends to be more successful for the child and the whole family. The key is to develop a comfortable relationship between the child and dentist that allows the former to have a more favorable experience overall.

According to the clinic, the owner and her staff built the new practice with their patients' health and comfort in mind. The office is equipped with the latest, cutting edge technology. They have invested in a new anesthesia device for kids as well, and they minimize the presence of needles. Dr. Maryna noted that parents often have concerns and questions about the amount of radiation that is given to their children. They are always reassured to learn that digital X-rays are taken at Vibrant Square Dental, which are safe for kids.

The clinic wants and encourages patients to feel comfortable asking questions about their oral health. When deciding on a treatment plan, intraoral cameras are used so that patients can see what their dental team sees. The hygiene team also makes smiling a pleasure. This is evident on the clinic's Instagram page as well, which can be found here: <https://www.instagram.com/vibrantsquaredental/>.

Tatiana added that word of mouth has proven to be the practice's most potent form of advertising, and this is bolstered by the fact that patient reviews of the clinic's services are often overwhelmingly positive in nature. For instance, Karina G. wrote, "I come here to see Dr. Maryna, and she is simply amazing. Very professional, very good at her work. If I have any questions, she explains everything very well, and I always understand every procedure. The receptionist makes you feel welcome, and I always have a good giggle. This office is reasonable with prices as well, which is hard to find nowadays. I love the staff there. Even though it's quite the drive for me personally, it's proven to be very worth it."

Thanks to the addition of one more dentist and surgeon on the team, the clinic looks forward to providing dental care to more happy patients. Vibrant Square Dental is also pleased to confirm that, along with the Concord area, they can now serve such places as Richmond Hill, Markham, Woodbridge, Scarborough, North York, King City, Brampton, Newmarket, Halton Hill, Mississauga, Oakville, Burlington, Caledon, Milton, Etobiko, Toronto and so on. The clinic offers restorative dentistry, gum therapy, teeth extractions, teeth whitening and cleaning and much more – and each procedure is administered by a talented expert in their respective field.

Patients and other interested parties who wish to learn more about Vibrant Square Dental, their services and their work with the community are welcome to contact the clinic by phone or email. The clinic's website also features a quick response form on its Contact page. Alternatively, the clinic can be reached through their social media platforms where they regularly share updates on their services and offers. Find them on Facebook at the following link: <https://www.facebook.com/vibrantsquaredental/>.
