

Design-Build Remodeler Action Builders Named in Top 500 Remodelers of 2021 by Qualified Remodeler

September 13, 2021

September 13, 2021 - PRESSADVANTAGE -

Action Builders, a company based in Bridgeville, PA, is proud to announce that Qualified Remodeler, a leading publication serving remodelers and home improvement companies in the U.S., has ranked them as No. 440 on its 43rd annual Top 500 Remodelers of 2021. The publication has been monitoring the industry's biggest and fastest growing companies, since 1978. In 2021, the Top 500 represented \$13 billion in remodeling sales volume on 1.1 million jobs, and Action Builders was among the chosen to be part of the prestigious list, based on a set of criteria, such as installed remodeling dollar volume, industry association membership, industry certification, total years in business, community service, and industry awards. More information about Action Builders can be gleaned from <https://pittsburghadditions.com/>.

Based on the analysis conducted by Qualified Remodeler, those companies that have been included in the 2021 Top 500 are experiencing a significant increase in business. Furthermore, those that have been included in the list for several years tend to have similar attributes, such as commitment to customer service, strong revenues, and excellent sales and marketing programs. Such characteristics have significantly contributed to their success in the remodeling and home improvement industry.

Action Builders is a professional design-build company specializing in additions, says owner Randy Stehr. We have completed over 500 projects in Pittsburgh during the last 30+ years. With a philosophy that focuses on quality rather than quantity, we are committed to delivering the highest quality work. This is achieved through a design-build process that places a heavy emphasis on planning before the first nail is even hammered.

There are a number of notable projects completed by Action Builders that are featured on their website. These include: the mid-century kitchen remodel in Mount Lebanon; the two-story Cape Cod style cabin remodel; the kitchen remodel and addition in McCandless, PA; the second story home addition and foundation repair in McCandless Township; the stone house addition in Mount Lebanon; the kitchen and

dining room swap in Mount Lebanon; the two-story addition plus whole-home renovation in Sewickley; the small kitchen plus flooring renovation in Mount Lebanon; the master bedroom plus overall update in Nevillewood; and more. Those who would like to take a look at the featured projects can go to <https://pittsburghadditions.com/featured-projects/>.

Action Builders can provide home additions, kitchen remodeling, home remodeling, outdoor living and entertainment spaces, basement additions and renovations, and bedroom and bathroom remodeling. Home additions are typically required by a growing family. Sometimes, people will move to another home if there's no longer enough space for the whole family. However, it is not always necessary to go through the hassle of moving to a new home. When a particular home starts to feel cramped, a home addition can be done to expand the living space. The professionals at Action Builders have the expertise and the experience to suggest ways to add more space to the home.

Meanwhile, a kitchen remodel is one of the popular projects as homeowners often dream of having a better kitchen that makes it easier for them to cook and use the kitchen as a gathering place for the whole family. The experts at Action Builders have been designing, building, and remodeling kitchens in Pittsburgh for more than 30 years, which means they have a lot of suggestions on how to make a kitchen not just look better but also allow more efficient use.

They also offer quality design-build services in Pittsburgh, allowing homeowners to achieve their dream of transforming their existing home into something that is more spacious and more attractive, thus adding to its value. They offer a simple process, which starts with the initial consultation, followed by providing the homeowner with some ballpark pricing. After receiving the ballpark pricing, the homeowner reviews the proposal and ensures that they have the necessary budget or financial options. Next are the design agreement; the specification of the scope of work and project costs; the signing of the contract, payment of the deposit; and scheduling; completion of the permit drawings and engineering; selection of materials and finishes; and finally, the construction is started.

Those who are interested in knowing more about Action Builders can check out their website at <https://pittsburghadditions.com/about-us/>, or contact them through the telephone or via email.
