

Grove City Home Services Directory Launched

October 08, 2015

October 08, 2015 - PRESSADVANTAGE -

Grove City, OH ? Grove City Home Services is a local directory established to be a ?go to? local stop for home and business service needs. It is designed to be a place where a homeowner or business owner can go when they need help with repair, maintenance or improvement to their property and where they don?t have to wade through a long list of businesses and don?t know which one to choose.

Unlike other online service directories, Grove City Home Services selects only one company per service category. Being selected is based on a company?s dedication to providing the very best service to their clients, a good online rating and competitive pricing.

?The vision is supplying unprecedented superior service to the Grove City area and partnering with local businesses that stand out amongst their competitors. Our goal is provide a place for quality service providers to showcase their businesses to our local community, thus helping to grow our economy.? Founder, Wayne Coakley, is the CEO of Grenade Marketing Group, a digital marketing agency located in Grove City Ohio. ?The project has proven to be highly successful in other parts of the country and we are excited to introduce it locally here in my hometown,? says Wayne.

Wayne also states, ?Our main goal is to provide Grove City homeowners and businesses with outstanding

service each and every time they contact our preferred businesses. So if a homeowner is looking for a local plumber, electrician, exterminator, handyman, painter, remodeler or any type of home improvement service need, they can go to our web site or Facebook page to find a preferred company that is local.?
