Louisville, Kentucky ? When a tree standing on Okalyn Ashlyn?s landscape started outgrowing its allocated space and pressing on her sprinkler box, Okalyn knew that the tree had to go. She knew that the tree removal project would be complicated given that the tree not only stood close to the house but was also near her decorative fence. After doing her research to find a tree service provider with enough experience to handle the challenging project, Okalyn settled for Louisville Tree Service Experts.

After working with Louisville Tree Service Experts, Okalyn was impressed with the company?s results. The property owner had the following to say about the company, ?Louisville Tree Service Experts provided us with great service. We had a tree that was crushing our sprinkler box that had to be removed. It was next to a decorative fence which provided an extra challenge in protecting the fence during the stump removal. The quote was very reasonable, the crew showed up on time and finished early. They were also very responsive to my phone calls and emails. I highly recommend Louisville Tree Service Experts and their crew!?
