

## **New Roofing Contractor Directory Website Launched To Cut Through The Clutter**

*October 08, 2015*

October 08, 2015 - PRESSADVANTAGE -

American Roofing Pros has recently announced the launch of their new website, which is designed to serve consumers and businesses who are looking for roofing contractors across the United States. The site offers roofing referral services in all 48 Continental States.

Founder of the site, Josh Smith of Raleigh, NC, stated, "We believe that we are partnered with the best Roofing Contractors across the entire US. Our goal is to deliver reputable roofers to consumers and businesses needing commercial or residential roof repair and/or roof construction."

American Roofing Pros also has a blog which shares information, such as how to know when it is time for a new roof, considerations when looking for a Roofing Company, etc. "Having just any roofer work on your largest investment is not the best idea," states Baxter. "Consumers and businesses need to make sure they use a highly recommended, quality roofing contractor that is going to deliver a solid service that stands the test of time"

While the roofing industry is impacted directly by the larger construction industry in America, the industry itself

has seen a steady 4.7% annual growth over the last 2 years, signaling that the need for reputable roofing contractors is on the upswing. It is estimated that there are over 67,000 roofing companies across the United States. With so many options to choose from, it can be overwhelming for consumers and businesses alike.

American Roofing Pros seeks to cut through the clutter and help those needing roofing services find reputable companies to work with, states Mr. Smith. We aim to make it easier on people to have peace of mind that they are making the best decision on keeping their dwelling in great shape for years to come!

Those interested in finding a roofing contractor in their respective geographic area can visit <http://www.americanroofingpros.com> for more information.
