

Tangent Solutions Renders New Relationship with Bliss Drive

September 16, 2021

September 16, 2021 - PRESSADVANTAGE -

Tangent Solutions, a mobile 3D scanning, design, and engineering service based out of Irvine, CA has announced a new partnership with Bliss Drive, a search engine optimization agency with offices in Los Angeles and Irvine, CA. With this new partnership, Bliss Drive is seeking to improve the online presence and reach of Tangent Solutions's range of design, scanning, rendering and engineering services.

Tangent Solutions specializes in mobile 3D Laser Scanning. According to their 3D Scanning Services page, "The 3D scanning process uses a blue light laser scanner to transform real-world objects into a digital rendering by laser triangulation. As the 3D laser scanner is passed over multiple targets, it generates a raw data point cloud between the targets. A clean and quick process, there is no mess, no spray, no taping, and our 3D laser scanner can perform nearly infinite scan sizes. Whatever the object size, our high-precision scanners are powerful enough to transform the details of physical objects into digital representation—even large objects like entire buildings!"

This scanning process then allows companies to use the data and computer-generated visualization for "inspection reports, verifying fitment, modeling, 3D printing, or reverse-engineering purposes."

Tangent Solutions also provides CAD Design, Model Rendering and 3D Printing Services. CAD Design services can be used to create entirely new projects or modify existing ones. Model Rendering services provide fully functional 3D models that can be edited and used in CAD. Lastly, 3D Printing services give clients the ability to hold a physical model of their design within hours of scanning.

Tangent Solutions proudly serves companies in a wide range of industries including, but not limited to: Aerospace, Advertising, Automotive Interiors, Amphibious Devices, Architecture, Automotive Wraps, Construction, Consumer Products, Digital Assets, Ecommerce, Injection Molding, Motorsports, Manufacturing, Plastic Modeling.

Being a mobile scanning solution, the team at Tangent Solutions is proud to serve the Orange County, CA area and beyond, including much of Southern California. To contact the Tangent Solutions team, interested readers can reach them during business hours (Monday - Friday 9:00am - 4:00pm) by telephone at (949) 345-0611, or after hours by email at contact@usetangent.com or through the Contact Us page on their website, <https://usetangent.com/>. Tangent Solutions is located at 2091 Business Center Dr. #110 Irvine, CA 92612.
