Long Beach Tree Experts Gives Back to the Community by Conducting Dead Tree Removal and Replacement in City Park

September 16, 2021

September 16, 2021 -
Long Beach, California ? A company that puts a lot of focus on offering value to the customers, Long Beach Tree Experts has decided to help park lovers by removing dead trees from one of the city parks and replacing the trees with new, healthy trees. Long Beach Tree Experts visited El Dorado Nature Center last week and removed 10 dead trees safely. Then, in collaboration with a local tree nursery, the company planted 10 new trees in the spaces previously occupied by the removed dead trees.

?It was one of our most satisfying projects,? said the company?s CEO. ?I mean we felt like we were contributing to the health of this town by removing dead weight from its urban forest and planting trees that would provide shade, clean the air, and lower global warming for decades.?

The CEO noted that the removed dead trees had already started making the park look unattractive. He reported that some of the trees were already decaying from the inside and it would have just been a matter of time before they cracked and fell on other trees.

Long Beach Tree Experts has been offering tree services for the past 25 years. In addition to understanding tree planting, the company also has deep knowledge of tree maintenance services like tree pruning and tree trimming.

?Our tree trimming team Long Beach helps homeowners restore aesthetic appeal on their landscapes,? said the chief of field operations. ?The tree pruning team, on the other hand, is responsible for maintaining tree health and safety ? the team removes dead branches, dangerous limbs, and diseased branches to keep the infections from spreading throughout the tree.?

Long Beach Tree Experts is loved for its ability to help homeowners with tree emergencies. The company?s emergency tree service Long Beach team works on a 24/7 basis to ensure that homeowners do not have trees that are threatening to fall on their houses or utilities.

?When our customers call and request our team of tree cutting professionals Long Beach to help with an emergency,? said the CEO. ?We always drop everything we are doing and start heading to the emergency site. We always arrive at the emergency site less than 60 minutes after receiving the call.?

Long Beach Tree Experts offices are located at 1461 W 14th St, Long Beach, CA 90813, United States. However, readers can call +1 949-691-3726 or send an email to sales@orangecountytreeexperts.com to request a tree service procedure.
