Ell's Enterprises.com, a business in North Vancouver, BC, Canada, are proud to have their product voted best cat toy in a prominent pet care blog. The blog looked at a number of specific toys and other products for various animals and asked the general public to cast their vote. The Ell's cat toy, available from <http://www.amazon.com/dp/b010wgf0kq>, came out on top.

"Everybody knows cats love toys and we really wanted to create something that guaranteed hours of fun," says Lee Johnson from Ell's Enterprises.com. "At the same time, we didn't want to reinvent the wheel, choosing instead to improve on something that was already out there. We believe our telescopic cat teaser achieves this, and we are so happy to see that the general public agrees with us."

The telescopic cat teaser is very similar to the popular Jackson Galaxy's feather cat toy wand. It is designed to be fun and interactive, providing enjoyment for both the cat and its owner. The toy comes on a strong carbon fiber rod that can extend to 37.5 inches. It also comes in its own storage box so that it won't get lost and can remain hygienic.

The cat toy has received numerous positive reviews, which is why it was picked up by the pet care blog and entered into the competition. "I absolutely love my cat toy," says one reviewer. "Most importantly, my cat loves it as well. Usually, I buy him a toy and all he plays with is the box, but not this time. In fact, I can now get him to come into the house just by getting the toy out of the box. This is a sign for Kitty that it is time to come in an play. Love it."

Ell's has released a number of other highly popular products for pets and their enjoyment. This includes dog toys, cat toys, bird activities and fish tank decorations. All of these items are available on the company's website on <http://www.ellsenterprises.com/index.html>. For the company, the goal is to make sure that pets are able to have fun with their owners and vice versa.
