

Everest Auto Repair Performs 5-star BMW Auto Repair services

December 05, 2014

December 05, 2014 -

NEWARK, DE ? Everest Auto Repair, a full service automotive repair and maintenance company, is currently rated 5 stars by reviewers on Yelp, Yahoo and Google Plus, noting its honest, reliable work and friendly customer service.

Specializing in BMW auto repair, Everest Auto Repair services foreign and domestic vehicles.

Previously known as Everest AutoWorks, the business was originally identified as the place for women to go for car care due to its track record of reasonable and honest service. Now under new management, reviews show women from all over the state of Delaware and in surrounding areas like Elkton, Md., still count on Everest for fair repair estimates and resolutions to their car troubles.

The words honest, quality, ethical and fair recur in online review after review, with many customers voicing amazement and loyalty to the business for its exceptional service. This alone makes it stand out among BMW auto repair shops in Newark and the surrounding areas.

With free quotes and an online coupon available for first-time customers, Everest Auto Repair prides itself on budget-friendly repairs and makes it a priority to give customers a clear explanation of the situation as quickly as possible. Car issues are explained in easy to understand terms directly from the mechanic.

While Everest has experience diagnosing uncommon automotive issues, like those represented in the Facebook video of BMW engine oil problem, it also handles the typical, recommended factory-scheduled maintenance items.

In fact, with Everest Auto Repair, manufacturer's warranties remain intact and detailed records are kept of all services performed on vehicles. Customers are alerted whenever possible to any safety issues that can and should be fixed for free under the manufacturer's warranty.

Although customers are welcome to wait during vehicle repairs in the Everest Auto Repair shop, purposely kept clean and comfortable with refreshments and reading material, pickup and drop-off services are available for those unable to arrange alternative transportation when having work done on their car.

Among the repair services offered are brakes and suspension systems, heating and air conditioning systems, radiators, the exhaust system, fuel system delivery, tires, electrical problems, mufflers, check engine light troubleshooting, repairs to meet state inspections and vehicle engine service.

All technicians at Everest Auto Repair are ASE Certified. For added security, Everest offers a two year or 20,000 mile guarantee on all work performed.

About Everest Auto Repair

Everest Auto Repair, with its online presence <http://everestautorepair.com/localautorepair/>, serves all of Northern Delaware, including New Castle County, Newark, Bear, Wilmington, Pike Creek and Christiana; and Northeast Maryland, including Cecil County and Elkton. Its website offers advice on brake and tire replacement, proper wheel alignment and information on state vehicle inspection, along with access to customer reviews and contact information.
