

PSS International Removals Manchester Opens New Regional Office In North West England

September 30, 2021

September 30, 2021 - PRESSADVANTAGE -

UK based PSS International Removals is pleased to announce that they have recently opened a new regional office in Greater Manchester, North West England at Unit 129a Bradley Hall Trading Estate, Bradley Lane, WIGAN, WN6 0XQ. This new regional location will serve as an office, a warehouse and a base for their professional removals teams and international removals surveyors.

When asked about their new PSS international location, CEO of PSS International Removals Liam Witham said, "As one of the largest UK international removals companies, we have been serving customers in the North West of England for years. Our new warehouse and office facilities allow us to offer an even higher standard of service. Demand for moving to Europe and further overseas has increased significantly as Covid-19 restrictions begin to relax, so this investment is very timely. The new and expanded facilities provide a base for our removal teams and international removal surveyors operating throughout Greater Manchester and North West England. The larger warehouse also allows us to provide storage facilities for customers and to consolidate part loads before onward transport to the port."

PSS International Removals is one of the leading international removal companies in the UK and have been helping people move across the world from Greater Manchester and the North of England for nearly four decades. They are an accredited international removal company that has been serving customers all across the North West (including Greater Manchester, Lancashire, Cheshire, Merseyside and Staffordshire). The company also specializes in export wrapping and packing to help those who are moving to other parts of Europe or to overseas destinations, such as Australia and New Zealand. They are a proud member of the British Association of Removers Overseas Group and accredited by FIDI FAIM, a global alliance of international moving and relocation companies.

PSS International Removals Manchester's international service includes door-to-door removal service, free in-home/online survey, shared groupage or full load container service, advice on customs requirements and much more. They even help with documentation and provide customers with storage in the UK or overseas, if required. Furthermore, they offer some of the best rates in the market ? without compromising the quality of their services.

When it comes to packaging, PSS International Removals Manchester offers full international export standard packing and wrapping services. They also offer a box/baggage shipping service for customers with fewer items to ship. The company provides export quality boxes, cartons and packing materials as well as custom wood casing and crates if needed. Furthermore, they have a great deal of experience in packing fragile items such as antiques.

Alongside international removals in Manchester, PSS International Removals offers international shipping, international box shipping, international baggage shipping and international car shipping. Customers may turn to the company for migration services, shipment protection cover, customs information and documentation, excess baggage shipping and a great deal more as well. Complete details can be found on PSS International Removals Manchester's website.

PSS International Removals upholds customer service as one of the main pillars of their service, and evidence of this is clear in the feedback they receive. Frank Ward says in a 5-Star review published on the Removal Reviews platform, "PSS handled our move to Spain without any problems. They sent a surveyor to look at everything, and their quote was very reasonable, but what sold us was the friendliness and professionalism of the staff. That convinced us that they would do a good job, and that proved correct. All our items were speedily well packed into a lorry and road freight to Spain. We had to wait a little for the load to go as it was combined with other customers, but that was a lot cheaper than having our own dedicated lorry. All our furniture and boxes arrived safely and were unpacked with no breakages. We are happy to recommend them if you're moving overseas."

Sarah Giles also says, "We used PSS to move to Auckland, New Zealand and were very happy with the service. The staff were very professional and friendly. The cost is very reasonable compared to other companies. Overall, we just felt good about them, and their service lived up to our original expectations."

Local residents or travelers looking for a trusted and reliable international mover in the UK are encouraged to learn more about PSS International Removals Manchester at the following link: <https://www.pssremovals.com>.
