Motor City Disposal, a company based in Roseville, MI, is offering rubber tire dumpsters in Michigan, particularly in the metropolitan Detroit area. They offer 10 yard and 20 yard rubber tire dumpsters and they are always focused on providing the best quality dumpster rental services at affordable prices. They want to emphasize that rubber tire dumpsters provide an easy way of getting rid of waste, junk, and debris that result from a certain project, such as a home renovation, outdoor projects, and construction projects.

They offer both residential and commercial dumpster rentals. The dumpsters they provide are suitable for every season, all year round. They are ready to provide a fast and convenient quote for a customer?s specific project, such as a home renovation, clean outs, or remodeling. Meanwhile, contractors and business owners may also depend on the dumpster rental they offer in the metropolitan Detroit area. They can provide waste management services for various kinds of commercial requirements.

Jason Stupera, owner of Motor City Disposal, says, ?We offer the best rubber tire dumpster service in

Michigan. With our easy-to-use online booking system, you can rent a dumpster anytime you want, all on your own schedule. We have you covered for any residential or construction clean-up you will decide to do. We provide comprehensive, professional, and personal customer service. Our mission is to provide an efficient process of renting a dumpster that our customers would love for its simplicity and quality. We always keep our dumpster rental prices low and our standards high.?

The 10 yard rubber tire dumpster measures 6 feet by 12 feet by 4 feet and has a common weight limit of 3 tons or 6,000 pounds. It is typically used for relatively small projects, such as: garage or basement clean outs; small renovation projects, such as 2,400 to 3,500 square feet of carpeting, 1,600 to 2,300 square feet of 1/2 to 5/8 inch thick drywall; small household items amounting to 250 to 400 square feet of general junk; up to 250 square feet of deck removal debris; and1,500 to 2,500 square feet of square roofing shingles, single layer.

The 20 yard rubber tire dumpster measures 6 feet by 16 feet by 5.5 feet and has a common weight limit of 4 tons or 8,000 pounds. It is usually utilized for various projects, such as: basement clean outs; clean outs for two-car garages; eviction and foreclosure clean up projects; and for disposal of various wastes, including 2,800 square feet of 28 square, double layers of roofing shingles, demolition debris amounting to 1,900 to 2,700 square feet of drywall or 3,000 to 4,200 square feet of carpeting, or 340 to 475 square feet of general junk from household removal items like mattresses and furniture.
