

Margate Roofer Getting Rave Reviews for Its Roof Replacement Services

October 04, 2021

October 04, 2021 -

Roofers Near Me Margate is a Broward County, Florida company that takes great pride in leaving its customers satisfied after they have completed a project for them. This is especially true when it comes to this company's roof replacement work. The company's whole roof replacement projects are not only done with extreme attention to detail by experienced crews but their customers are kept updated through every step of the process and the job is not considered complete until a thorough cleanup has been done. This explains why the company gets so many 5-star reviews on its reroofing projects.

Here are some examples of the types of glowing reviews that this reputable contractor has been getting on its whole roof replacement services. Lynn Summers stated, "Outstanding service. Quick to respond and even faster to fix. Excellent value for the money and provided a warranty so I can sleep well at night. Good, honest family-owned business. I would give them 10 stars if I could. They are my roofers forever on out!" Marilyn Higgins proclaimed, "Roofers Near Me Margate is a great company to work with. They were very efficient and professional. The workers were courteous and everything was cleaned up after each day of work. My roof looks beautiful. I would definitely recommend them to anyone."

Even those that have had commercial roof replacements done by the company have left glowing reviews on that work. Elvira Drake writes, "Roofers Near Me Margate recently completed a reroof of my 12-unit condo. It was done quickly and flawlessly with no disruption to the owners. The workers were remarkably silent and left the building in great shape." All of the above reviews were taken from the company's Google Maps Business Listing where every review that's found there rates them a perfect 5 out of 5-stars.

The company representative, Dan Laicor, says, "We are absolutely thrilled when a customer takes the time to sit down and thank us for the quality roofing service that we provided for them. It shows that the well-rounded approach that we take with all of our roof replacement projects is really making a big impact on the work that we do. Quite frankly, we wouldn't have it any other way. Our company will continue to

approach each roof replacement job that we take on in the most meticulous manner possible and treat our customers the right way while doing it.?

Laicor went on to say that the connection with their customers usually starts the minute that they call looking for free ?roof estimates near me?. That?s because they will see from the moment that they first contact us that we are a company that knows roofing work well and has a tendency to treat customers more like family when working for them. He added that the bonds that they establish early on with their customers only get stronger once they meet with them in person to do the initial roofing inspection. Their customers are amazed at how thorough that these reroofing pre-inspections are. That?s because during them they do such things as walk the entire length and width of a roof looking for structural deficiencies. The company representative stated that at the same time they will take measurements to get the supplies for the roof replacement and also take note of any venting or additional leak prevention work that needs to be done. Customers are also usually pleasantly surprised with the reasonable prices for their roofing project supplies; something that Laicor attributed to the long-lasting and strong relationships that they have established with their area?s roofing suppliers. He also talked about how they keep the work area tidy at all times during the project. Even when removing the old roofing material and underlayment. They also go out of their way to make sure that the rows of shingles or other roof covering material are laid down perfectly straight and the roof is completely watertight once the project has been completed.

The company representative welcomes anyone in Fort Lauderdale, Pompano Beach, Margate, or Boca Raton that is looking for any type of ?roof repair near me?, to get in touch with them by phone, email, or website appointment form.
