

## **EPS Landscaping & Tree Service LLC Shares Landscape Installation Ideas**

*October 04, 2021*

Pembroke Pines, Florida - October 04, 2021 - PRESSADVANTAGE -

Pembroke Pines, FL based EPS Landscaping & Tree Service LLC is sharing a number of landscape installation ideas with their community. The company hopes that this information will help homeowners express themselves with more creativity when they make adjustments on their property. Alternatively, the company asserts that such decisions can have a positive benefit on the value of a home when the time comes to sell it.

Many of the company's ideas were recently shared in a blog post that explores this in greater detail. In "Landscape Installation Ideas That Will Increase The Value of Your Home," EPS states that homeowners need to begin any landscaping project by considering what they really want. Once they settle on a specific goal, the company explains, they can start to figure out what they need to pursue it, including tools, materials and labor (as well as the financial investment all of this would represent).

Each home has different needs, and its residents should be taken into account when developing a plan. For

instance, families will often need relatively open, expansive areas for children to play in, and other family members may like to lounge outside on a patio on a fairly regular basis. Whatever the case may be, homeowners should try to sketch out their ideas to gain some perspective on how everything would fit in relation to each other. Notably, making such a design is usually an iterative process, so EPS recommends that people avoid trying to come up with a finished plan immediately. Instead, they should take the time to try different ideas in a variety of combinations until they find a complete picture that feels right. Sketches do not have to be artistically flawless either; their only purpose at this point is to provide an overview of possible changes.

EPS' next tip is to stick to natural alternatives wherever possible. As many studies have shown, spending time in nature has a profoundly calming effect on the mind, and it is important to remember that a home's outdoor space should likewise remain an extension of the natural world in order to offer these benefits. The company comments, "There's nothing quite like nature. If you can create a more natural atmosphere in your home, you'll soon realize it's an invaluable investment."

It then follows that a carefully planned layout will be the most valuable, both in terms of raising the house's value as well as offering its residents a more tranquil atmosphere to live in. The company observes that there are a number of tried-and-tested methods to achieve this, and there is no reason to deviate too far from established strategies simply for the sake of being unique. For instance, many people like flowers, so they should feel free to have as many flowers as they wish. The company adds that it is hard to go wrong with classic options, such as rose bushes, stone pathways, display planters and more. However, should anyone need help either designing a new landscape or implementing their vision, they are welcome to turn to the team at EPS Landscaping & Tree Service.

As a Pembroke Pines landscape maintenance provider, the company has a wealth of experience working with their community. This has led to the company earning high praise from their customers, both for the value of their work as well as the high standard of customer service they provide.

Gina M. says, "I called EPS Landscaping and Tree Service to trim my palms ahead of the last tropical storm. Not only do my palms look fantastic, I didn't have to be out after the storm picking anything up from my yard. The team was knowledgeable and courteous, and customer service is exceptional. Greg and Jessica will take care of you the right way!"

Another customer shares that they turned to the company for numerous services, including lawn mowing/maintenance, tree trimming and pruning, tree and stump removal and so on. Bryan Cook says, "When I called this company they came out and exceeded my expectations. I have recommended EPS to all of my friends. They are a one stop shop to meet all of your landscaping needs."

Those looking for a professional landscaping, lawn care and tree care specialist may reach out to Greg O'Connell of EPS Landscaping & Tree Service LLC to discuss their needs further or request a quote. Additional information regarding the company's services can also be found on their website and social media platforms.
