

CTX Dumpsters Offers Affordable Dumpster Rental in Round Rock TX

October 08, 2021

Round Rock, Texas - October 08, 2021 -
Local Round Rock, TX waste management company, CTX Dumpsters, highlights the importance of renting a dumpster as a viable and critical option in the disposal of different types of waste in Round Rock, TX, and surrounding areas.

According to a report published by the United States Environmental Agency (EPA); the average American citizen generates an average 4.40 pounds of waste every single day, which translates to a humongous 1600 lbs. annually. For a small family, this may not look so bad, but this amount of trash quickly escalates to an amount that local city waste disposal agencies cannot easily manage when this figure is multiplied by the number of families living in the state.

Companies also generate a lot of waste every day as a by-product of their daily production activities, and such waste can only be safely and effectively disposed of by renting a waste removal dumpster.

"Large-scale industrial cleanouts, office location renovations, building and construction waste, foreclosure and eviction cleanouts, large-home cleanouts, demolition waste, yard maintenance waste and waste produced by businesses and large companies are usually too much for local disposal authorities. The only way to effectively manage and dispose of such large amounts of waste is to rent a waste removal dumpster," stated Jeremy Thrailkill, CTX Dumpsters' founder and CEO.

According to the information given on their website, CTX Dumpsters is a locally owned company that was built from the ground up. They promise to provide their customers with superior dumpster rental services and on-time delivery. They seem to value their employees as an integral part of the company's success.

"The team at CTX Dumpsters is proud to say that we are a self-made company that's locally owned and operated. You can count on us to provide you with a superior dumpster rental service, on-time, and ready to get to work managing your waste for you. We know firsthand that you're only as strong as your weakest link when it comes to building both a team and a business, which is why we have the best, most knowledgeable and experienced team in Central Texas," says Mr. Thrailkill.

According to the CTX Dumpsters website, the company offers affordable dumpster rentals to homeowners, contractors, communities in Round Rock, TX, and services to other cities in Central Texas. Some of the cities listed in their service area are Leander, Cedar Park, Austin, Georgetown, Taylor, Hutto, Pflugerville, and their surrounding areas. They have containers in four dumpster sizes, namely, 10-yard dumpsters, 13-yard dumpsters, 15-yard dumpsters and 20-yard dumpsters.

In a bid to find out whether the company provides reliable dumpster rental services and superior customer service as they claim on their website, an individual can check for company reviews and ratings online. The company is listed in the Better Business Bureau (BBB) with a solid A+ standing. CTX Dumpsters has many positive reviews on Yelp, Google, and Facebook platforms.

The dumpster rental company has concentrated its services towards construction companies needing construction waste removal dumpsters and homeowners needing a residential roll off dumpster rental. However, they also mention that they provide dumpster rentals for businesses that need temporary waste removal containers for various projects. Those who are interested in the dumpster rental services offered by CTX Dumpsters in Round Rock, TX, can find more information by visiting their website.
