

Milwaukee Tree Service Experts Uses Tree Pruning to Eliminate Mistletoe from 14 Trees

October 11, 2021

October 11, 2021 -

Milwaukee, Wisconsin ? A company that works harder than expected to keep its clients coming back for more services, Milwaukee Tree Service Experts seems to be achieving its goal. After completing a dead tree removal safely for Mack Millhouse, Milwaukee Tree Service Experts was rehired by the property owner to help with Mistletoe that was affecting 14 of his trees. Just as expected, Milwaukee Tree Service Experts once again impressed the client who left the team a 5-star review on Google Reviews.

On the new review, Mack Millhouse had the following to say, ?We had Milwaukee Tree Service Experts remove some dead trees a while ago (one was about 30' tall) and they did a great job so we asked them back to remove Mistletoe from 14 trees (most were over 25' tall) before it killed them. Once again they did a great job.?

Speaking after learning about the comment from Mack Millhouse, the Milwaukee Tree Service Experts CEO had the following to say, ?Our company always prioritizes our clients? needs. This is why we always talk to each client to understand his needs before initiating any tree service procedure. What?s more, our team of tree cutting professionals Milwaukee has more than 2.5 decades of tree service experience. When the team combines this experience with our ultramodern tree service tools, we turn a client?s ideas into reality. Satisfying our client?s needs has always worked well for us ? it helps us turn first-time clients into long-term clients who keep coming back for more services.?
