

Printed Bunting For Special Events Released

October 20, 2015

October 20, 2015 - PRESSADVANTAGE -

About Bunting, a business in Maroochydore, QLD, Australia, is happy to announce that they are able to help people brighten up their events with bunting flags with custom prints. This in line with the fact that spring and summer in Australia bring various festivals and events. These can be used purely for decoration, but they can also be used as part of a corporate branding strategy, by having them printed in corporate colors with logos, for instance.

"All businesses know how important it is to have a good branding strategy in place," says Barbara Roskvist from About Bunting. "If they are attending an event and they want people near and far to see them, our bunting can play an important role in that. They can be custom printed to our customers' personal requirements. Additionally, they are double sided printed and come in loads of different shapes. This makes them stand out from the crowd."

Pennant bunting is one of the most popular types of printed bunting offered by the company. This is because it can suit any type of occasion. Meanwhile, corporate printed bunting is also gaining in popularity, mainly due to the fact that it has a huge impact on spreading messages and raising awareness about businesses and brands.

However, About Bunting does not only focus on events and fun activities. Their bunting is also frequently used on construction sites and other places where safety may be an issue. Here, safety spelling bunting can be used in order to warn the public of inherent dangers and more.

To date, the company's event bunting has been greatly appreciated by their many customers. "The bunting arrived and it looked perfect," says Jen. "Thank you so much for your help and patience with me over the past couple of months, I really appreciated it. C.A. were thrilled and are already planning on doing it again next year so I will undoubtedly be in touch again at the end of the year. I have also sent your details around to our whole marketing/events team with a glowing recommendation so if any other clients have bunting needs they know you're the best in the business."
