Alexander D. Napolin, owner and founder of Napolin Accident Injury Lawyer Riverside, says, "If you are hurt in an accident, you need to speak with the best California accident injury lawyer. The insurance company of the person who hurt you is not on your side. I am a top personal injury lawyer who asserts claims against the insurance companies using proven methodology. My approach when prosecuting accident injury claims results in successful outcomes for my clients."

Finding a personal injury law firm that has a reputation of success is vital. However, it is not advisable to simply go to a firm that boasts of past successes or having a good track record. There are many other factors that will influence the outcome of a particular case. One important factor is the proper assessment of the case. Another key factor is the timely prosecution of the case in such a way that the client's general well-being is improved. That is why the car accident attorney Riverside clients can depend on is someone who focuses on the clients and not on previous successes.

A common type of personal injury cases handled by Napolin Accident Injury Lawyer Riverside is the car accident case. However, although car accidents are quite common, they are not simple cases, but in fact are complex cases because they don't just deal with personal injury law. Oftentimes, they also involve traffic law. Drivers who get involved in car accidents may have also broken traffic rules.

And it is important to remember that the amount of compensation an accident victim is entitled to is not just the amount of money required to fix the car. There are also the medical bills incurred due to the injuries, plus the injured party may also have lost some time at work because of the need to get treated. Furthermore, the accident victim may not be able to immediately get back to work when the injury is serious enough to require a relatively long recuperation and/or rehabilitation period.

That is why it is vital to find a reliable personal injury lawyer who can guide the accident victim in navigating the legal processes and ultimately get the most favorable conclusion possible that can be obtained from a court of law. The lawyer can also help the client navigate through the processes required by the insurance companies.

Furthermore, a key step in car accident cases is determining who was at fault for the accident. An experienced lawyer is needed because this is not as simple as finding out "who hit who." This is complex because traffic rules may be involved. For example, it may turn out that the driver of the car that was hit by the other car is really at fault for having run a red light.

Founded in 2011, Napolin Accident Injury Lawyer has grown into a well-balanced California law firm that is focused on pursuing personal injury cases. After over 10 years, the firm has established a reputation of being a reliable law firm because of the successes they were able to get for their clients. These successes were due to Alexander D. Napolin's unique strategy and philosophy that he applies for every case that he handles. The law firm has now successfully helped thousands of accident injury victims.
