The BAM Companies has achieved the following ranks in previous Inc. 5000 lists: No. 1,319 (2018), No. 1,118 (2019), No. 1,843 (2020), and 3,008 (2021).

The BAM Companies saw a 127 percent growth within a span of three years. The website describes BAM Companies as ?an asset management firm specializing in the acquisition and management of multifamily apartment communities?.

Inc. first revealed the Inc. 500 list in 1982. Even then, the goal of the list has always been the same: to recognize privately held companies that are at the pinnacle when it comes to growth. It has since become a representation of success for entrepreneurs. It is a place where the most promising companies can first make their mark.

It was in 2007 that the Inc. 500 list was expanded to become the Inc. 5000. This was done so that readers can see the bigger picture and gain an even better understanding of the current entrepreneurial landscape. Inc. 5000 is now considered a distinguished editorial award that captures a broad spectrum of success. In fact, well-known brands such as 7 Eleven, Toys ?R? Us, Zipcar, and Pandora have been honored by the Inc. 5000.

Inc. determines the rankings based on overall revenue growth over a three-year period. All 5000 companies are featured individually on the Inc. website, while the top 500 are featured in the September issue of Inc. Magazine.

The Inc. 5000 list celebrates innovation in the entrepreneurial industry. It also showcases some of the nation?s most promising entrepreneurs. The list ranks the fastest-growing companies by industry, revenue, metro area, and a number of employees. It also highlights companies that are run by women and minorities.
