

Public Adjuster Helps Victims of Hurricanes and Other Disasters Get Optimum Amount from Insurance

October 19, 2021

October 19, 2021 - PRESSADVANTAGE -

Love Adjustment Group LLC, a company based in Cheltenham, PA, is offering help to victims of hurricanes and other disasters get the maximum amount possible from their insurance companies. They offer the services of a public adjuster who can help people whose home has been damaged by a storm, flood, fire, or any other natural or man-made disaster. A public adjuster is a professional who is well-versed in insurance but works only for the policyholder and not the insurance company. Public adjusters have the expertise and special training in interpreting the intricacies of the client's policy assess and document the complete scope of the damage, and negotiate a claim to expedite the client's financial recovery by maximizing the amount that can be obtained from insurance.

"You've just been through a hurricane and your house is ruined. You need to have the damage assessed by professionals who know what they are looking for, so you can get reimbursed from your insurance company. But the question is, where do you find them," says John K, a spokesperson for the Love Adjustment Group. "In general, if you want an independent professional that doesn't work for an insurance company or other third-party organization, then a public adjuster may be the best choice for you. Public adjusters represent individual policyholders in their negotiations with insurers over claims disputes and coverage issues. A

percentage fee is usually charged based on the amount of the claim.?

Public adjusters in PA, such as the Love Adjustment Group, are ready to help policyholders recover the amount of money that they may have been denied or underpaid by an insurance company. Property owners who have a dispute with their insurance firm can be assisted by a public adjuster, who will negotiate on their behalf to ensure they will get the amount that they deserve. However, it is important to note that there may be times when a public adjuster or other third-party representatives may not be required. For instance, if the damage surpasses the deductible on the policy, the property owners typically are not required to go through a loss adjuster to recoup damages. They can simply submit the claim and wait for it to be paid.

Love Adjustment Group LLC can help both residential and commercial property owners when it comes to fire damage, water damage, storm damage, tree damage, or smoke damage. Whether it is partial or extensive fire damage, they can help reduce the stress homeowners experience in recovering their home. Hurricanes and storms can cause sudden water damage and a public adjuster can help in handling each part of the insurance claim process. Tree damage may also occur because of strong winds or a storm. A public adjuster can help get the optimum amount from a tree damage claim.

Previous clients have expressed their satisfaction with the service they received from Love Adjustment Group. For instance, Bob H. gave them five stars and said, "We had a little mishap with the shower that majorly had water coming through the living room ceiling and down the walls. Fred showed up right away to put our mind at ease and had his team out the very next day cleaning it up, ripping it out, and airing it out so we wouldn't get mold. He then dealt with the insurance company for us which was a very fast and painless experience. Top notch guy and a top notch company. You won't be disappointed and I wouldn't use anyone else but Fred and his team if I ever have an issue again."

Love Adjustment Group LLC was established to serve as a local insurance public adjustment group serving Pennsylvania, Delaware, Maryland, and New Jersey with regards to their residential and commercial claims. They are licensed and insured and offer 24/7 service. Those who are interested in learning more about their services as a public adjuster near me can check out their website, or contact them on the phone or through email. They are open 24 hours day, every day of the week.
