Xpress Exterior Design: Baltimore Roofing Company Now Set To Serve Local Homeowners

October 25, 2021

October 25, 2021 -
Maryland based Xpress Exterior Design (XED) is pleased to announce the opening of their new Baltimore location. Homeowners in the neighborhoods of Inner Harbor, Downtown, Fells Point, Federal Hill, Hampden, Canton, Patterson Park, Brooklyn, Mount Vernon, Roland Park, Bayview, Harbor East, Pigtown, Locust Point and beyond are invited to contact Xpress Exterior Design: Baltimore Roofing Company today for all their roofing needs.

Xpress Exterior Design: Baltimore Roofing Company explains that the new location was opened in order to better serve their customers across the Baltimore metropolitan area. Recent storms and again structures, the company points out, have led to an increase in the demand for professional roofers who have experience working on weakened or damaged roofs. Xpress Exterior Design is capable of carrying out both repairs and full roof replacements for all kinds of roofing structures, and their team is familiar with a wide variety of materials. As a result, customers can be perfectly confident that their roof repair, installation or replacement will be executed perfectly. The company offers asphalt shingle, metal, slate, tile and cedar shake roofing services.

When storm damage affects their roof, the company urges every homeowner to get in touch to find out whether they are eligible for roof repairs ? or even a brand new roof. Roofs that are at least a decade old may be more prone to developing leaks or losing shingles, so they should be inspected after every incident of severe weather, especially hail and wind. Xpress Exterior Design employs a team of storm damage specialists who are accustomed to rectifying storm damage, so no roof issue is beyond their capabilities. Notably, homeowners may request a free storm damage inspection through the XED website if they suspect some damage has occurred.

Though they are a recent arrival, the company is already making waves among the communities they serve. Boasting a 5-Star score on their Google profile alone, Xpress Exterior Design is reportedly demonstrating an

excellent standard of customer service that is present throughout every aspect of their work. As Nicole T. shares in their top-rated review, ?Xpress provided a level of customer service that is hard to find today, with roofers or contractors in general. I don't believe you can find a better roofing company at any price! They communicated well. They didn't try to oversell me on a bunch of things that I did not need. They were priced competitively, and their crews did a great job installing our roof and gutters, and they cleaned up things wonderfully. There was no trash or nails around our home at the end. I highly recommend Xpress Exterior Design!?

Xpress Exterior Design explains that many of their customers appreciate the fact that no job is too big or too small for their team to handle. The company considers every concern their community has about their properties to be valid enough to be addressed by a professional, and all those looking for a Baltimore, Maryland roofing contractor are welcome to bring their issues to Xpress Exterior Design.

Harry H. alludes to this in their review as well, explaining that, ?Since the job was small, we had a hard time finding anyone who wanted to do the work.? In addition to the fact that XED saw no reason to turn this customer down, they committed themselves as if it were a far more lucrative project ? the company believes that every customer deserves high quality service no matter what. The review concludes, ?We certainly will have larger projects around our home in our future and will not hesitate to contact them first. Thank you!?

Xpress Exterior Design has already built a reputation for being Maryland's most trusted roofing company, and they are eager to show their Baltimore community every advantage they have to offer. With premium warranties, industry-leading materials, and unbeatable craftsmanship, XED asserts that they are set to deliver a roofing experience like no other.

Homeowners looking for help with their aging or damaged roofs are welcome to contact Xpress Exterior Design: Baltimore Roofing Company to request a free inspection and professional advice regarding their options. XED?s licensed, bonded and insured roofing contractors will be pleased to assist them in any way possible. Further details regarding their services can be found on the company?s official website.
